## 6 OEKO-TEX® STANDARD 100

To attain Oeko-Tex Standard 100 certification, the fabric has been tested and certified to be free from harmful levels of more than 100 substances.

Our new Home Grown collection is our first garden brand which uses WasteNot™ yarn. WasteNot™ yarn is made from 100% recycled PET bottles. PET stands for polyethylene terephthalate which is a form of polyester. Plastic bottles made from PET are recycled and turned into polyester to make gloves.

In addition, our nitrile gloves will break down in landfill conditions due to the Reclaim™ additive in the nitrile formation. Biodegradation only begins when the gloves are discarded in landfills conditions (ASTM D5511). Once the biodegradation process begins, the Reclaim™ additive will ensure that they do not just break down into smaller pieces, but are actually converted to biogas like other organic materials creating a circular economy.

ASTM D5511 shows up to 3.4% biodegradation in 47 days
