- 3M™ Silver Cut-Off Wheels.. 27

*Intrinsically safe, Class I, II, III, Division 1, applicable Groups A through G, T5, -20° C to 50° C; Intrinsically safe, Class I, Zone 0, AEx ia IIC, T4, -20° C to 50° C, hazardous locations

Protective Eyewear

3M™ Solus™ 1000 Series Safety Eyewear with Scotchgard™ Anti-Fog Premium Coating

Scotchgard™ Anti-Fog Coating lasts longer than traditional anti-fog coatings,* helping to increase eyewear performance in wet and steamy environments.

- Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens
- The coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer
- The coating can be disinfected with diluted bleach soaking or up to 15% alcohol wipes without losing its anti-fog performance
- Scotchgard™ Anti-Fog coated eyewear meets the requirements of ANSI Z87.1 and CSA Z94.3

*Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

3M™ SecureFit™ 300 Alternate Fit

NEW
Q2
2018

Stylish, lightweight design weighs less than 1oz. Features proprietary 3M™ Pressure Diffusion Temple Technology that helps diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit across a diverse workforce. SecureFit™ Alternate fit protective eyewear expands the fit of eyewear to multiple face shapes and sizes with unique design adjustments such as lens angling angled to help accommodate high cheekbone structure and soft nose pads designed to help fit securely on a low nose bridge.

- 3M Pressure Diffusion Technology allows temples to naturally adjust to individual head sizes eliminating the need to stock multiple frame sizes at worksites
- At a weight of less than 1 oz., provides comfortable, durable, lightweight eye protection
- Secure, snug fit keeps eyewear in place without slippage even when the person is in motion
- Anti-scratch coating helps protect lenses from scratches, nicks and scrapes that can become distractions

3M™ GoggleGear™ 2890 Series

Q3
2017

The GoggleGear™ 2890 Series Safety goggles feature a modern design, Scotchgard™ Anti-fog lens coating, and are available either as non-vented or with indirect ventilation. They are suitable for a number of different applications where a comfortable goggle is required.

Scotchgard™ Anti-fog coating lasts longer than traditional anti-fog coatings, helping to increase eyewear performance in wet and steamy environments. The coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer.

- Indirect venting or non-venting goggle
- Clear or gray polycarbonate lens
- Scotchgard™ Anti-Fog for fog and abrasion resistance
- D3 (droplet and splash) and D4 (dust) rated

Respiratory Protection

3M™ Ultimate FX Full Facepiece Respirator Stacked Lens Cover FF-400-18

Q4
2015

3M™ Stacked Lens Cover FF-400-18 makes it easy to help protect the lens of the 3M™ Ultimate FX Full Reusable Respirators Facepiece, models FF-401, FF-402 and FF-403, while maintaining worker productivity in certain work environments. The lens cover features seven layers that can be easily removed as they become contaminated. As a layer is removed, it reveals a fresh, clean layer underneath.

- Includes seven removable lens cover layers to help protect the facepiece lens
- Each layer easily peels away by hand as outer layer becomes clouded with overspray, dirt and residue
- Peeling away contaminated layer reveals a clean layer underneath
- The perimeter adhesive on the lens cover seals firmly to the lens and helps keep debris away from facepiece lens
- Outer layer may be peeled away by hand while wearing respirator, limiting work stoppages to change the lens cover
- Stacked lens cover system minimizes prep time when multiple lens covers are required to perform a job
- System works with 3M™ Ultimate FX Full Reusable Respirators Facepiece, models FF-401, FF-402 and FF-403

3M™ Organic Vapor Service Life Indicator Cartridges 6000i Series

Q4
2015

Includes the 3M™ Service Life Indicator technology, an end-of-service-life indicator (ESLI) that can help users determine when to change cartridges in appropriate environments.*

- 3M™ Service Life Indicator technology to help determine when to change your cartridges in appropriate environments*
- Optimize cartridge use in certain environments with service life indicator based on individual exposures and respiratory use
- NIOSH approved for protection against certain organic gases and vapors
- Swept-back design allows an enhanced field of view and increased comfort
- Bayonet compatibility allows use with 3M™ brand half and full facepiece designs

*Please see the 6001i and 60921i User Instructions or the 3M™ Select and Service Life Software (3M.com/ServiceLifeSoftware) to determine if these cartridges and the (ESLI) are appropriate for your work environment

3M™ VFlex™ Health Care Particulate Respirator and Surgical Mask 1804 and 1804S, N95

NEW
Q2
2018

This health care particulate respirator and surgical mask helps provide respiratory protection against certain airborne particles. The folded respirator expands for a spacious feel and the pleats help increase surface area for ease of breathing.

- NIOSH approved N95
- FDA cleared for use as surgical mask
- Fluid resistant and disposable
- 3M proprietary filter media and pleats help make breathing easier

3M™ Versaflo™ Healthcare PAPR Kit TR-600-HKS and TR-600-HKL

Q4
2016

3M™ Versaflo™ Healthcare PAPR Kit TR-600-HKS and TR-600-HKL offer a complete powered air respirator system that include everything needed to get started, including disposable headcover, breathing tube, particulate filter, motor/blower, charger, and cleaning and storage kit. These kits are popular for hospital and healthcare applications and settings.

- Complete healthcare respiratory protection system kit allows for use out of the box
- User-friendly design with intuitive, colored interactive touch points and visual, vibratory and audible low-flow and low-battery indicators
- Use in certain environments where easy cleaning is a priority
- Versatility allows for use with a range of components
- Helps protect against particulates. Gas and vapor protection can be provided with cartridges (sold separately)
- System provides integrated solutions for respiratory protection, with limited eye, head and face protection as well

3M™ Versaflo™ Powered Air Purifying Respirator TR-600 and 3M™ Versaflo™ HEPA and Nuisance OV Filter TR-6820N

Q4
2016

The 3M™ Versaflo™ TR-600 Series Powered Air Purifying Respirators help provide durable protection, even in harsh environments. Designed to be compatible with multiple configurations of headtops, breathing tubes, batteries, filters, cartridges and more. Featuring an intuitive user-friendly design with colored interactive touch points, filter loading and battery status indicators, and visual, audible, and vibratory alarms.

- LED status lights for battery charge on both the battery and the motor blower
- Low battery and low flow indicators, including vibratory, audible and visual alarms
- Easy tool-free maintenance
- The TR-600 is easy to clean
- Active flow control technology maintains consistent airflow across any of the three user selectable airflow settings, even as the battery level decreases and filter loads with particulate
- Ergonomically designed to fit close to the body and allow for greater movement in tight work spaces

3M™ Versaflo™ Healthcare PAPR Assembly TR-614-HK

Q4
2016

3M™ Versaflo™ TR-614-HK Healthcare PAPR Assembly includes a motor/blower, standard battery, battery charger, filter, filter cover, length adjusting breathing tube, easy-clean belt and airflow indicator. Workers can customize their respiratory protection system by choosing the headtop. With the option to customize, workers can design a respiratory system that meets their specific needs.

- User-friendly design with intuitive, colored interactive touch points and visual, vibratory and audible low-flow and low-battery indicators
- Works with numerous NIOSH approved filters/cartridges (sold separately) to help protect against particulates and gases/vapors
- Versatility allows for use with a range of components that are interchangeable
- Worker selects headtop (sold separately) to customize respiratory system

3M™ Versaflo™ Respiratory Faceshield Assembly M-200 Series

Q4
2016

Lightweight, comfortable headgear that when used with an approved air source, combines a respirator and faceshield, with the option of adding earmuffs for hearing protection. This headtop is popular in light industry where respirators and face protection are typically used. Combine with 3M Versaflo PAPR or Supplied Air components to create a complete respiratory assembly.

- Complete, fully assembled headtop that, when paired with an approved air source, allows for use right out of the box
- Meets the requirements of the ANSI Z87.1-2010 standard for limited eye and face protection devices; may be a comfortable alternative to standard faceshields
- Flexible application, use with any 3M Versaflo system
- Hearing protection is compatible with the M-985 helmet mounted earmuffs (sold separately)
- May be a comfortable alternative to negative pressure respirators
- Easy-to-use design with ratchet suspension and liftable visor

GVP-600

Q4
2017

The GVP-600 Upgrade Kit is an adapter kit that allows use of the TR-630 battery with certain GVP PAPR configurations and replaces the BP-15 battery. The GVP-614-SK provides a ready to use PAPR assembly designed for smelting or heavy industrial use. Simply add a NIOSH approved 3M Versaflo M-Series headgear option and the user is ready to go.

- Easy to use
- Comfortable
- Both the GVP-600 and GVP-614-SK include the 3M™ Standard Battery TR-630, which when used with the GVP and TR-659 battery adapter provides a longer expected run time than the BP-15

Radiant Heat Accessories

M-973N

M-975N

Head and shoulders protection from radiant heat. Now you can increase the utility of your 3M™ Versaflo™ M-307 or M-407 Respiratory Helmet – by adding integrated protection for head, neck and shoulders against radiant heat, sparks and splashes.

- 3M™ Radiant Heat Accessories have a low profile, designed specifically for use with select helmets.
- The 3M™ Over-visor is designed to flip up, allowing the user the flexibility to have tinted IR/UV protection when needed.
- The 3M™ Radiant Heat Covers, when used in combination with the 3M™ M-967N Gold Over-visor, offer 360° coverage of the helmets
- Radiant Heat components are modular, allowing multiple combinations and different coverage options in tough environments.

Hearing and Communication

3M™ PELTOR™ Earmuffs – X Series

Q3 2016

Q3 2017

Q1 2018

3M™ PELTOR™ Earmuffs with multiple headband options are 3M's latest advancement in hearing conservation. New technologies in comfort, design and protection all come together in this groundbreaking earmuff line. Designed for protection against industrial noise and other loud sounds.

- Multiple headband options: appropriate for a wide range of applications
- Fit can be confirmed: Verify with 3M™ E-A-Rfit™ Dual-Ear Validation System***
- Series has a wide range of attenuation: Noise Reduction Ratings (NRR) from 21dB to 31dB***
- Hard hat attached models:
 - High-performance arms balance durability and flexibility
 - Easy click in / click out: move cups on and off ears easily
 - Convenient storage: store with cups clicked in or out
 - Models available to fit 3M cap-style and full-brim hard hats. Designed for use with a standard hard hat slot**

**These earmuffs were designed and tested with 3M H-700 and H-800 Series Hard Hats.

***3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

3M™ PELTOR™ WS™ ALERT™ XP™ Headset

NEW
Q2
2018

With Bluetooth® wireless communication, noise-cancelling boom microphone, integrated FM-Radio and level-dependent function for ambient listening, the WS™ ALERT™ XP Headset not only helps protect you against hazardous noise, but also makes it easy to make phone calls with both hands free in noisy environments.

- High attenuating hearing protector in two models: stand-alone headband or safety helmet attachment
- Bluetooth® technology for connection to one external device for hands-free talk and streaming
- Noise cancelling boom microphone for clear speech transmission in noisy environments.
- Level-dependent function for ambient listening to help improve your situational awareness

3M™ PELTOR™ ALERT™ FM-radio headsets

3M™ PELTOR™ ALERT™ Headset has been developed to help improve safety and motivation in noisy environments. It enables you to listen to FM-radio or external device (MP3-player, cell phone) and still hear your surroundings, or communicate with your colleagues without taking the hearing protector off. It helps safeguard you from harmful noise, while allowing you to work and interact with others.

- Occupational Hearing Protection helps protect you from potentially harmful workplace noise
- Built-in FM Radio for Listening Enjoyment
- The level-dependent environmental listening allows ambient sounds to be heard while being limited to 82dB.
- User-friendly controls.
- The 3.5 mm listen only stereo input (limited to 82 dB) connects to external devices (e.g. mobile phone, two-way radio, MP3 player) via the included 3.5 mm cable.
- Improves your ability to communicate with nearby colleagues without removing the headset.
- Improves your ability to hear without removing the headset.

XH001677430	07318640055421	M2RX7A2-01	3M™ PELTOR™ ALERT™ FM-radio headset headband M2RX7A2-01, 26dB NRR*
XH001680400	07318640063266	M2RX7P3E2-01	3M™ PELTOR™ ALERT™ FM-radio headset hard hat attached M2RX7P3E2-01, 25dB NRR*

*3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

3M™ PELTOR™ Push-To-Talk (PPT)

Small, durable and lightweight, these Push-To-Talk (PTT) adapter will connect 3M™ PELTOR™ COMTAC™/SWATTAC™ and Industrial headsets to select Motorola or military radios and provide reliable receive/transmit functionality. Rely on the quality 3M™ PELTOR™ FL4000 Series PTT.

- Small, Smart design to maximize tactical vest real estate
- PELTOR rugged durability to take on challenging environments
- Offers distinct tactile feedback when the Push-to-Talk button is pressed

Hearing and Communication cont.

3M™ PELTOR™ WS™ LiteCom Pro III Headset

Q3
2017

The analog and digital two-way radio enables clear, hands-free communication in high levels of noise and integrates seamlessly into your existing two-way radio system. And with Bluetooth® multipoint functionality, workers can be wirelessly connected to two mobile devices. Plus, workers stay protected, aware and able to communicate face-to-face while never removing their hearing protection through level dependent functionality. And all of this technology is combined with the professional-grade durability and all day wearability you've grown to expect from 3M™ PELTOR™.

- Built-in programmable two-way communication radio allows hands-free headset-to-headset communication without cumbersome cables or cords
- Easily integrates into similar professional radio communication systems
- The headset can be programmed to use up to 70 unique two-way radio channels using analog and/or DMR digital modulation
- Designed by 3M™ PELTOR™ and built tough for the working professional

*3M strongly recommends individual fit testing of hearing protectors. If the NRR is used to estimate typical workplace protection, 3M recommends that the noise reduction value be reduced by 50% or in accordance with applicable regulations.

Head Protection

Task Lighting for 3M™ Hard Hats

Q4
2016

Versatile headlamps that allows hands free lighting in certain industrial uses and can be worn with or without 3M™ Hard Hats. These water-resistant hard hat mounted headlamps are popular for a wide range of indoor/outdoor industrial lighting applications.

- Includes three AAA batteries and three attachment options – nylon headstrap, rubber hard hat strap, 3M™ Dual Lock
- The rubber headband provides a secure attachment for the headlamp to most 3M hard hats
- The 3M™ Dual Lock fastener works well for securing the headlamp to many hard hat designs and materials
- Securing the headlamp without a strap reduces interference with earmuffs and other hard hat attachments
- The nylon headband allows the lamp to be worn by the user without wearing a hard hat

3M™ Protecta® Full-Body Harness Line

Q1
2018

The new generation of 3M™ Protecta® Full-Body Harnesses – Raising the bar. Not the price. Now your customers can get comfort, convenience, upgraded features and a sleek, modern look—all at an entry-level price. Available in four redesigned styles with a variety of d-ring configurations and buckle types, these harnesses are enhanced with upgraded features, including:

- Softer and more robust hip padding
- Stiff belt webbing
- A fixed back D-ring
- ANSI Z359.11 compliant
- Auto-resetting, lanyard keepers
- A built-in easy-link personal SRL adapter.

NOTE: The New 3M Protecta Harness line will replace the existing Protecta PRO harness line on May 1st, 2018. See data package or price list for crossover from old to new part numbers.

3M™ DBI-SALA® Delta™ Comfort Arc Flash Harness

3M™ DBI-SALA® Delta™ Comfort harnesses combine a set of “industry-first” advancements, with popular features making them the workhorse of the industry.

- Arc flash rated - Resistant up to 40 cal/cm2 making it ideal for use where high voltage electricity is a concern
- Nomex®/Kevlar® material provides shoulder, back and leg comfort padding. Lightweight and flame resistant padding with soft edging wraps around the wearer for the ultimate in comfort, security and no-tangle donning
- PVC coated fixed back D-ring - Provides a safe and non-conductive connection for your fall arrest system and keeps you upright every time
- Revolver™ vertical torso adjusters - Simple and fast adjustment eliminates loose ends, locks into place preventing slippage and completes 5-point adjustment system
- Dual lock quick connect chest and leg straps - Lightweight one-handed use with memory fit web-lock ensures fast, non-slipping connections

Harnesses cont.

3M™ DBI-SALA® ExoFit Nex™ Plus Full-Body Harnesses

Now you can get the same comfort of the ExoFit NEX harness with three new time-saving features: an integrated easy-link SRL adapter, a fixed back d-ring and auto-resetting lanyard keepers.

- Integrated easy-link SRL adapter lets you quickly and easily connect and disconnect personal SRLs.
- Fixed dorsal D-ring helps maintain proper dorsal d-ring position and reduces the need to readjust during the workday.
- ANSI-compliant auto-resetting lanyard keepers for fast and easy parking of snap hooks and carabiners
- Shoulder, back and leg padding for enhanced worker comfort.
- Stand-up aluminum back D-ring ensures fast, easy and secure connections to your fall arrest system.
- Revolver torso adjusters store excess webbing, locking it in place and out of your way while maintaining an excellent fit.

Anchors

3M™ DBI-SALA® Sliding Beam Anchors

Mobility. It's critical to getting the job done, just like your fall protection. With the new 3M™ DBI-SALA® Sliding Beam Anchor, you get the best of both worlds. Once you secure it to the beam using the redesigned adjustment buttons, simply connect your Self-Retracting Lifeline (SRL) or lanyard to the swiveling D-ring and you're ready to work. The anchor point slides effortlessly behind you.

- Hands-free Mobility 360-degree swiveling D-ring optimizes your mobility on the beam.
- Rugged durability Corrosion-resistant construction meets ANSI standards for weather, environmental and storage conditions.
- Visible adjustability Dual ratcheting adjustment buttons are accessible above the beam, while locking mechanism is located on the side to reduce accidental engagement.
- Lightweight Compact size and lightweight materials make transportation a breeze.
- Easy pad replacement Snap-in design of wear pads allows them to be replaced quickly in the field.
- Compliant Meets ANSI Z359.18 Anchorage Connector standard; OSHA 420 lb./ANSI 310 lb. ratings.

3M™ Protecta® Sliding Beam Anchor

Work confidently with the 3M™ Protecta® Sliding Beam Anchor. This durable solution provides a high-strength anchorage point that follows you while you work. Once you secure it to the beam using the integrated adjustment buttons, simply connect your Self-Retracting Lifeline (SRL) or lanyard to the rotating D-ring and you're ready to work.

- Versatile size range Fits beam flanges 3-1/2 in. to 14 in. (9 cm-35.5 cm) wide and up to 1-1/4 in. (3.2 cm) thick.
- Built to last Rugged, corrosion resistant construction enhances longevity.
- Fully adjustable Integrated dual ratcheting adjustment system slides to fit snugly against the beam.
- Guarded locking mechanism Located on the bottom to reduce chance of accidental disengagement.
- Replaceable wear pads Eliminate metal-to-metal contact and extend the usability of the product.
- Compliant Meets ANSI Z359.18 and OSHA 1910.140, 1926.502 Anchorage Connector standards.

Connectors

3M™ DBI-SALA® Delta™ Comfort Grip Connector

3M™ DBI-SALA® Comfort Grip Connector was designed for workers who need the flexibility to anchor efficiently and comfortably in multiple orientations.

- New design positions the fingers so the gate is completely open
- Connects to a variety of anchorage points easily and effectively
- Connector is designed and certified to arrest a fall when loaded in multiple orientations
- 5000lb Tensile strength
- 3600lb Gate strength
- 3600lb Transverse strength
- Designed to self-align
- Wide variety of configurations available

Self Retracting Lifeline

3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform Self-Retracting Lifeline

3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform Self-Retracting Lifelines are designed to reduce interference with equipment controls, reduce required fall clearances, and activate quickly to arrest a fall.

- Application flexibility - Requires up to 20% less fall clearance than a standard six foot lanyard*
- Security - Activates quickly in the event of a fall, reducing the distance traveled before arrest
- Working mobility - Designed to help reduce interference with platform controls so you can focus on your work
- Lightweight - Weighs as little as 2.5 lbs

*Clearance values are based on actual testing, but results may vary in the field depending on bucket truck type, orientation of boom, deflection of the boom, location of anchor point, user weight and type of fall protection used. See clearance chart in user instruction manual before use.

Self Retracting Lifeline cont.

3M™ DBI-SALA® Lad-Saf™ Cable Vertical Safety Systems

NEW
Q2
2018

This system is a 2-user, galvanized steel vertical safety system (vertical lifeline) that meets the new ANSI Z359.16 standard, along with OSHA 1910.140 and 1926.502, when used with the Lad-Saf X3 Detachable Cable Sleeve (6160054) and Lad-Saf X2 Detachable Cable Sleeve (6160030). It includes the top and bottom brackets and 20' of swaged 3/8 inch 1x7 galvanized steel cable.

- Designed to meet the requirements of the new ANSI Z359.16 standard, along with OSHA 1910.140 and 1926.502, when used with our Lad-Saf X3 Detachable Cable Sleeve (6160054) and Lad-Saf X2 Detachable Cable Sleeve (6160030).
- Ordering is easy – the entire system sold in a single SKU, including both brackets, pre-swaged cable, and cable guides.
- Light – weighs less than our previous systems.
- Reengineered to simplify and speed up the installation process.
- Fewer loose parts: Fewer than 13 separate components, up to 72% less than our previous comparable model.
- 100% tie-off capability: Integrated fall arrest-rated anchor point on top bracket rated to 3,600 lbs.

3M™ DBI-SALA® Smart Lock Self Retracting Lifelines

NEW
Q2
2018

Our smartest SRLs yet. From reducing nuisance lockups, to simplifying inspections, every detail of the new 3M™ DBI-SALA® Smart Lock Self-Retracting Lifelines is designed to help increase your productivity, safety and convenience.

- Rugged and extremely lightweight thermoplastic housing with built in ergonomic handle
- Patented magnetic retraction control system allows lifeline retract smoothly, hands free
- Swiveling anchorage point and carabiner included
- Patented dual label system located within ergonomic cable handle to simplify inspections and reduce the need for replacement
- Swiveling snap hook with impact indicator
- Connected Safety RFID located in cable handle

3M™ DBI-SALA® 5lb. Tool Retractor

Q2
2017

The 3M™ DBI-SALA® 5 lb. Tool Retractor features a lightweight, compact housing and a high-strength Dyneema® retractor line. This design helps minimize tool tangling, as well as minimizing job site tripping hazards and entanglements, while reducing weight on workers' belts and harnesses.

- Secure tools up to 5 lbs. Strong Dyneema® retracting line is the same material used in a variety of personal Fall Protection products
- Minimize tangling and tripping hazards. Line stays comfortably taut while reaching and retracts when not in use, or it can be locked at desired length.
- Reduce line twisting. Swivel top housing connection point rotates with worker's motion.
- Work freely. Working length of retractor line helps extend a worker's reach up to 50 inches.
- Lighten the load. Compact, lightweight profile adds less than half a pound to worker's gear load at just 0.36 lbs.
- Dual-action self-locking carabiners on each end of the device helps prevent accidental disconnections or carabiner rollout
- Harness Adapter - #1500161 Add an attachment point for the Retractable Tool Lanyard to your harness webbing.

3M Part No.	Description
1500156	The 3M™ DBI-SALA® Harness Adapter is a lightweight, versatile attachment point. The harness adapter is designed to be used with our 3M™ DBI-SALA® 5lb Tool Retractor, Hook2Loop Bungee Tether, Hook2Hook Coil Tether with Swivel, Hook2Hook Coil Tether and Hook2QuickRing Coil Tether with Tail.

3M™ DBI-SALA® Hard Hat Tether

NEW
Q2
2018

Introducing the new heavy-duty 3M™ DBI-SALA® Hard Hat Tether. Work with confidence knowing that if your hard hat falls off, it's not going anywhere. The new 3M™ DBI-SALA® Hard Hat Tether features a new proprietary clip design that prevents deformation of the clip over extended use. This helps ensure a secure attachment, helping to further reduce the number of dropped hard hats.

- Offers double the weight capacity. Its 4 lb. load rating allows you to confidently add hearing protection or a face shield to your hard hat.
- Simple installation and removal. Spring-compression, ambidextrous design makes it easy to use with either hand.
- Grips harder on more materials. Patented clip holds stronger when force is applied to it.

Connected Safety

3M™ Inspection & Asset Management Software and 3M™ Connected Safety Mobile App

With the 3M™ Inspection & Asset Management Software, you're not just streamlining your safety and asset management process and system — you're giving yourself access to real-time data that can help you enhance your worker protection program.

- Enhance Compliance Processes - gain easier access to audit information, which helps with assurance of worker and workplace compliance
- Save Time - digital inspection management reduces paperwork and helps save time spent on documentation and administrative tasks
- Be Proactive - on-demand reporting provides a direct line of sight on selected compliance metrics in real-time, helping users gain potentially valuable safety insights
- Cloud-based for simple deployment and easier maintenance

3M™ Retrofit RFID tags in multiple configurations

The 3M™ Adhesive Mount HF RFID Tag for Flat Surfaces has an adhesive tape backing to make it easy to mount to flat surfaces. The 3M™ Adhesive Mount HF RFID Tag for Curved Surfaces is backed with a 3M™ VHB adhesive tape with foam core, making it more effective in mounting to curved surfaces. The 3M™ Mechanical Mount HF RFID Tag is designed to be mechanically mounted to surfaces with cable ties and the model MMTY also comes with key rings and adhesive disks for additional attachment options. These tags are also best suited for metal surfaces. For applications on non-rigid surfaces, the 3M™ Hanging Mount and 3M™ Retrofit Pouch provide a variety of attachment options.

3M™ Silver Depressed Center Grinding Wheels

3M™ Silver Depressed Center Grinding Wheels (DCGW) represent a new class of long lasting right angle abrasives – powered by the legendary speed and long life of 3M Precision-Shaped Grain and engineered to offer an outstanding value, when abrasive cost takes precedence over reducing total production time. They are an ideal choice for applications like weld removal, beveling, edge chamfering and more – offering a longer life and faster cut than aluminum oxide, alumina zirconia and conventional ceramic abrasives.

3M™ Silver Cut-Off Wheels

3M™ Silver Cut-off Wheels are a new kind of premium performance wheel designed to be affordable for everyday use. Featuring 3M Precision-Shaped Grain technology, these innovative wheels deliver fast, smooth cutting action on all types of ferrous metals, stainless steels and alloy steels. Plus they last longer than aluminum oxide and alumina zirconia wheels. That means fewer wheel changes and more finished parts per wheel, to help improve shop productivity and control your costs.

See important warnings at the end.

⚠WARNING

Welding Helmets

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. **Misuse may result in permanent eye injury and vision loss.** Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For proper use, see supervisor, or *User Instructions* or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Fall Protection Products

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the *User Instructions* provided with the product, and be properly trained by their employer prior to use per OSHA 29 CFR 1910.140 and 1926.503 or applicable local standards. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see Supervisor, *User Instructions*, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Respiratory Products

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including, but not limited to, training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For correct use, see Supervisor, *User Instructions* or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Hard Hats

3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provide limited protection only. **Misuse or failure to follow warnings and *User Instructions* may result in serious personal injury or death.** For correct use and selection, see Supervisor, *User Instructions*, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Eye and Face Products

These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and *User Instructions* may result in serious potential injury, including blindness or death.** For proper use, selection, and applications against flying particles, optical radiation and/or splash, see supervisor, read *User Instructions* and warnings on the package or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Hearing Protection Products*

Caution: When worn according to the User Instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, visit www.3M.com/hearing.

Choking Hazard—Keep away from infants and small children. These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, *User Instructions*, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

Noise Reduction Rating (NRR):

*3M strongly recommends fit testing of hearing protectors. If NRR is used to estimate typical workplace protection, 3M recommends that NRR be reduced by 50% or in accordance with applicable regulations. See *User Instructions* for more information.

Important Notice: WARRANTY: 3M will replace or refund the purchase price of any Personal Safety Division (PSD) product found to be defective in material, manufacture, or not in conformance with any express warranty. This warranty is exclusive and is in lieu of any implied warranty of merchantability or fitness for a particular purpose. **LIMITATION OF LIABILITY:** Except as provided above, 3M shall not be liable or responsible for any loss or damage, whether direct, indirect, incidental, special or consequential arising out of the sale, use or misuse of 3M PSD products, or the user's inability to use such products. THESE REMEDIES SET FORTH HEREIN ARE EXCLUSIVE.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. 3M has no obligation under this warranty with respect to product that has been modified or damaged through misuse, abuse, accident, neglect, misapplication, or mishandling by purchaser.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
