Adhesive Removers, Cleaners & Strippers

Surface Cleaning

	08888	08983	38300	38350
Description				
	An aerosol cleaner for all glass surfaces including windows, windshields, mirrors, and side glass. May also be used to clean automotive vinyl, interior plastic and clear plastic. 3M™ Glass Cleaner is non-flammable, and will not affect painted surfaces.	Low VOC, water based solvent used to remove oils, wax, grease, and silicone from surfaces prior to coating. Effectively cleans metal, primed metal, and painted surfaces prior to the application of primer and paint.	Glass cleaner concentrate that contains no silicone and is body shop safe. Dilution ratio: 1 part concentrate to 14 parts water. Non-streaking formula and ammonia free.	Cleans dirt stains and soils from carpets, fabric and leather upholstery. For general cleaning, add 1 part concentrate to 30 parts water. For heavy cleaning or stain pre-spotting, add 1 part product to 15 parts water.

Description	 One piece metal applicator gun designed for use with all No Cleanup products. Requires no cleaning. Refer to individual No Cleanup products for proper air pressures. Requires the use of No Cleanup Replacement Nozzle 08966.	 Designed for use with 3M™ No Cleanup Coatings, part numbers 08804, 08949 and 08964.	 Developed to provide a unique, convenient and inexpensive means for spraying 3M™ Rubberized Body Schutz, part number 08864, 3M™ Rocker Schutz, part number 08874 and 3M™ Rust Fighter-I, part number 08991.	 Developed to provide a reusable, inexpensive means of applying 3M™ Rust Fighter-I (Quarts) into hard to reach areas. This is a 36 inch flexible tube that has a specialized tip which provides a 360 degree or 180 degree spray pattern.

Contact Adhesives

	08051	08074	08088	08090
Description	 Specially formulated to allow multiple disc applications without adhesive buildup or paper delamination. Discs remove easily and cleanly.	 Clear adhesive that is used for attaching lightweight trim material such as upholstery cloth and trunk liners to metal and other surfaces. May be used to bond styrofoam. Ideal for position bonding applications where mechanical fasteners will be used.	 Low VOC, clear, high strength adhesive for bonding automotive materials such as carpeting, jute pads, fabrics and plastics to metal and other surfaces. Has good heat and water resistance.	 Aerosol contact adhesive designed for bonding vinyl tops, heavyweight liners and hood silencer pads where high strength and heat resistance are needed.

Trim & Emblem Adhesives

	08031	08061	08063	08069
Description	 Extremely fast drying, non-staining, amber adhesive for bonding trim fabric, upholstery cloth, floor mats and carpeting to bare metal and KB board. Also useful as a gasket adhesive to hold gaskets in place while assembling parts.	 Strong, quick-drying adhesive can be used for bonding plastic or metal emblems, interior rigid plastic, tail light lenses, vinyl side moldings or upholstery.	 Easily applied, non-stringing, clear, gel adhesive with excellent sag resistance. Product dries fast, has excellent initial holding strength and will not harm cured paint.	 Transfer adhesive allowing emblems with existing foam tape to be re-attached. No stringing or trimming needed. Simply press emblem onto adhesive and place emblem on vehicle. 10 pieces per pack, 6 packs per case.

Back Side/Structure Adhesives

	04240	04247	04747	08235
Description	 <p>Urethane plastic repair material for repairing damaged bumpers and re-building tabs. Can also be used to bond many dissimilar materials such as plastic, fiberglass and metal.</p>	 <p>20-second set urethane adhesive that replaces cyanoacrylates. Will not crack or become brittle like cyanoacrylates. Bonds to virtually any substrate and has excellent gap-filling capabilities for bonding small parts. Excellent for rebuilding cracked eyelets and broken tabs.</p>	 <p>4747 is a two-component adhesive that has a very fast gel and cure time. The two parts consist of a base side and an accelerator side. The two parts are always mixed together.</p>	 <p>Excellent choice for quick repair of nicks, gouges, or small defects on mentioned plastics due to extremely fast work time. Excellent adhesion over a wide range of temperatures.</p>
