Reusable Respirators, Cartridges and Filters

The following particulate filters can be used with 3M™ Respirators 5000 Series or 3M™ Cartridge 6000 Series with 3M™ Adapter 502, or 3M™ Half and Full Facepieces 6000, 7000 and FF-400 Series with bayonet filter holders.

When properly fitted, use in a variety of applications including welding, brazing, torch cutting, metal pouring, soldering, and exposure to lead, asbestos, cadmium, arsenic, and MDA for concentrations up to 10 times the Permissible Exposure Limit (PEL) with half facepieces or 50 times PEL with full facepieces. Full facepieces must be quantitatively fit tested to claim assigned protection factor above 10 in negative pressure mode.

3M™ Particulate Filter with Nuisance Level Organic Vapor Relief 2097, P100

Offers nuisance level relief from organic vapors that are below the PEL. Nuisance level refers to concentrations not exceeding OSHA PEL or other applicable government occupational exposure limits, whichever is lower. Not NIOSH certified for use against ozone. Do not use for respiratory protection against organic vapors or in environments that are immediately dangerous to life or health (IDLH).

Noise Indicator

3M™ Noise Indicator, NI-100

Innovative and durable noise detection, the NI-100 noise indicator alerts you when noises in an area reach potentially hazardous levels. The noise indicator's small size and lightweight design make it ideal for workers in a variety of industries. With a rechargeable battery that operates for up to 200 hours between charges, it's an economical investment in your hearing conservation program.

- Red Flashing LED indicates noise levels are above 85 dBA and hearing protection may be required.
- Green Flashing LED indicates noise levels are below 85 dBA and hearing protection may not be necessary.
