Features and Lens Colors

3M™ Eye Protection

3M™ Pressure Diffusion Temple Technology

Eyewear temples self-adjust to a wide range of head sizes, diffusing pressure over the ear and enhancing comfort.

Adjustable Ratchet Temples

Adjusts the pantoscopic tilt of the lens to help accommodate cheek bone height and improve comfort and fit.

3M™ Scotchgard™ Protector Anti-Fog Coating

Resists fog 11x longer than traditional 3M anti-fog coatings, and remains effective for up to 25 washings with water*. Coating is tested to EN168 N & K for anti-fog and anti-scratch and meets Anti-fog Performance (X) requirements of ANSI/ISEA Z87.1-2020.

3M™ Anti-Fog Plus Coating

Resists fog 11x longer than traditional 3M anti-fog coatings, and remains effective for up to 10 washings with water*. Coating is tested to EN168 N for anti-fog performance, and meets Anti-fog Performance (X) requirements of ANSI/ISEA Z87.1-2020.

Brow Guard

Additional top coverage during impact and leaves room to help airflow.

Foam Gasket

Helps limit eye exposure to debris but not as tight as a goggle.

Goggles

Designed to seal to the face. Can be splash/droplet, dust and/or fine dust rated.

Cord Control System (CCS)

Designed to keep eyewear and earplugs attached, untangled and ready to use.

Lens Colors & Functions

CLEAR

Highest visual acuity and color recognition

POLARIZED

Reduces overall brightness, glare and reflected light

VERMILLION

Helps improve visual acuity and contrast

GRAY

Reduces overall brightness of visible light

BROWN

Reduces overall brightness, typically allowing color recognition

BLUE (excl. "sodium blue")

Reduces brightness and glare from yellow light sources. Not intended for use in glass blowing.

INDOOR/OUTDOOR

Slightly reduces overall brightness of visible light

AMBER

Increases contrast by filtering hazy and blue-colored light

INFRARED FILTERS

Reduces infrared radiation

PHOTOCHROMIC

Darkens when exposed to UV light (outdoors) and lightens when UV light is reduced (indoors)

ORANGE

Reduces blue light in specific applications, e.g., blue light curing

MIRRORED

Reflects light sources, helping reduce brightness

3M™ SecureFit™ Protective Eyewear

3M™ Pressure Diffusion Temple Technology for all-day comfort.
