

## Durable chemical-resistant gloves with heightened grip, ideal for outdoor application

- **Enhanced grip:** AlphaTec® 58-530B chemical gloves' ANSELL GRIP™ coating means less force is needed for handling wet or oily parts
- **Elevated comfort:** Their black acrylic inner liner enhances comfort while facilitating outdoor application
- **Advanced defenses:** These AlphaTec® gloves' bonded construction, with a coating polymer that doesn't penetrate the liner in manufacture, ensures EN 374 Type A chemical protection
- **Improved durability:** They also achieve ANSI/ISEA 105-2024 ABRASION LEVEL 5 and EN ABRASION LEVEL 3
- **Specialized protection:** Beyond chemical protection, they possess EN 407 contact heat level 1, preventing workplace injuries
- **Augmented dexterity:** AlphaTec® 58-530B PPE gloves' light 7-gauge design makes them more dexterous, for maneuverable hand protection

### Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical
- Food Processing

### Applications

- Metalworking & assembly operations
- Body painting including surface inspection
- Applying sealers, touching up
- Changing tools and dies
- Handling application & cleaning tools
- Warehousing of raw materials
- Loading and unloading trucks and vehicles
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Food Processing

### Key Features

- **ANSELL GRIP™ Technology:** Less force needed to grip wet or oily parts
- **Black acrylic liner:** Comfortable and ideally colored for outdoor usage
- **Bonded construction:** No liner penetration and heightened dexterity
