ONE-Fit® N95

PARTICULATE RESPIRATOR

Sperian ONE-Fit NBW95 and NBW95V particulate respirators

An exclusive design and shape. Universal, one size respirator designed to fit most face sizes and shapes.

The ONE-Fit NBW95 and the ONE-Fit NBW95V are the latest NIOSH approved, N95 molded-cup style filtering respirators from Sperian Protection. As a universal, one-size respirator, both the NBW95 and the NBW95V (with exhalation valve) are designed to fit most face shapes and sizes while providing outstanding respiratory protection.

- Designed to be an economical choice for effective single-use respiratory protection.
- 95% filtration efficiency against solid particulates and non-petroleum based liquid aerosols.
- Both the NBW95 and NBW95V meet NIOSH standards for N95 protection.
- Meets CDC guidelines for *M. tuberculosis* exposure control.
- Recommended for protection against many substances including pandemic diseases such as H5N1 Avian Flu and SARs.

NBW95 and NBW95V Features

- Strong and rigid outer shell prevents mask from collapse in high humidity or moist environments.
- Form-fitted mask contours with the natural shape of the face, minimizing pressure points.
- Molded nose bridge comfortably fits a variety of face shapes and sizes. Reduces adjustment needed to insure proper fit and is compatible with spectacles.
- Electrostatic non-woven polypropylene polyester fibers that ensure filtration performance.
- Dual welded head straps keep the respirator comfortably on the user's face.
- Latex free woven suspension straps reduce the possibility of breakage and do not pull or tangle hair.
- Lightweight construction allows for longer wear time and less fatigue.
- Soft inner lining for extended comfort.
- Hypo-allergenic for users with sensitive skin.

Applications

- Cutting or Sanding Wood
- Fiberglass or Drywall Installation
- Auto-Body Industry
- Landscaping and Yard Maintenance
- Household Dust
- Grinding
- Healthcare (Non-FDA)
- Welding and Metal Cutting
- Trash Processing

Box dimensions: 5.375" wide x 5" deep x 7.0" tall • Box weight: 40 lbs. • Case dimensions: 26.2" wide x 11.3" deep x 8.1" tall • Case weight: 5.75 lbs.

Respiratory Training Program

Sperian Protection offers a complete respirator training program to assist your facility in achieving compliance with OSHA regulations. Materials include:

- OSHA MedCert online medical evaluations
- Respirator fit-test program and materials
- Respirator use and maintenance program and materials
- Various respirator fit-test kits

Respiratory Protection Standards

Use of respirators in the workplace is regulated by OSHA Respiratory Protection Standards 29 CFR 1910.134, which requires an appropriate respirator program be established to include a written program, employee training, respirator fit-testing, medical monitoring and program documentation and maintenance.

For information about these materials, contact your respirator supplier
