

Ball End Socket Bits

- ProGuard™ Finish -

- Bits fit any standard six point socket
- Ball End inserts into a screw at a 25° angle
- Ball End saves time by quickly funneling tool into screw
- Superior Ball End strength and working angle

ProGuard™ finish delivers superior corrosion protection

BONDHUS®

TOOLS THAT WORK

- Bits can be purchased with or without sockets
- ProHold® technology holds bits securely but remains easy to remove without the use of special tools
- Bits can be used with any standard six point socket
- The most economical solution available

BONDHUS LIFETIME WARRANTY
If any Bondhus® tool breaks or fails to meet your expectations in any way, we will replace it free of charge.

High Torque Steel:

Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

FINISH OPTIONS:

Corrosion-resistant finish:

Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

ProHold® Socket Bit Technology

Bondhus ProHold® technology is a revolution in holding systems that makes all other holding systems obsolete. Bits seat firmly into socket. No special tools are required to remove bits from sockets.

BONDHUS 1/4 USA

Bit sizes are clearly printed in white ink.

ProHold® buttons hold bit securely while allowing easy removal without the use of set screws or roll pins.

Bits are suitable for use with standard or impact sockets.
