Heavy-Duty Nitrile Coated Gloves

#N93/4B

Chemstop® gloves feature a cut-and-sewn cotton-jersey shell with a nitrile coating that stays flexible for better comfort and dexterity. Nitrile, a synthetic rubber, has excellent resistance to oil and grease, does not contain any latex proteins, and offers excellent resistance to punctures and tears, being three times more puncture resistant than rubber when used in gloves.

Available in **(N93/4B)** 3/4-dipped nitrile glove, bandtop cuff, **(N93/4K)** 3/4-dipped nitrile glove, knitwrist cuff, and **(N93/4BR)** 3/4-dipped nitrile glove, rough finish, bandtop cuff.
