Neoprene Over Latex Unsupported Gloves

#NL3030

The special neoprene latex dip incorporates the best qualities of each glove dipping compound into this glove. The neoprene over dip on the palm area adds chemical resistance to many acids, alkalis, oils and solvents. The natural rubber latex layer gives this glove its excellent flexibility and comfort. Heavyweight 30 mil thickness and 12" in length. Flock-lined to absorb perspiration and for easy on and off. CFIA Approved for food handling.
