

InstantFOAM™ Complete

The Complete Solution for Hand Sanitizing

A World First Innovation

InstantFOAM™ Complete is an innovative sanitizing solution for bacteria, viruses, fungi and yeast.

Using patented Foaming Technology™ the unique perfume-free & dye-free alcohol-based liquid is dispensed as soft-structured foam. InstantFOAM™ Complete is formulated with 80% ethyl alcohol (w/w) for optimal broad spectrum efficacy. It is designed to be used without water, combining both safety and preference.

Invisi-Feel™

InstantFOAM™ Complete leaves hands feeling clean without a residue or sticky after-feel on the hands, even when used frequently:

- No tacky film left on hands
- No polymer build-up
- No tightness of skin immediately after use

Ideal for use in multiple areas

The product is ideal for **critical hand hygiene situations** where closed or semi-closed quarters may increase the likelihood of outbreaks, such as **cruise ships** and **long-term care**.

Also suitable for use in all **food handling** and **food processing** environments where a higher level of hand hygiene is needed to reduce the risk of cross contamination.

Ideal for use in all areas to prevent the spread of many types of common germs.

Efficacy

Broadest spectrum of activity:

- Proven to eliminate up to **99.9999%** of 58 species of bacteria, yeast and fungi in 15 seconds*
- Tested and shown to be effective against **enveloped and non-enveloped viruses** within 30 seconds**

Complies with international test standards: ASTM E2783-11(in vitro test with 58 microorganism species), EN1500 (in vivo bactericidal), EN12791 (in vivo bactericidal - surgical rub), EN1276 (in vitro bactericidal), EN13624 (in vitro yeasticidal & fungicidal), EN13727 (in vitro bactericidal), EN14476 (in vitro virucidal: poliovirus type 1, adenovirus type 5, murine norovirus - as a surrogate of human norovirus), EN1650 (in vitro yeasticidal & fungicidal), EN14348 (in vitro tuberculocidal), ASTM E2011-13 (in vivo virucidal: murine norovirus - as a surrogate of human norovirus, Rhinovirus Type 14)

Preference

Unlike with liquids, foam does not run off the hands and provides the user with complete control of the product without dripping or splashing, ensuring the full dose is applied effectively with every application. Compared to gels, InstantFOAM™ Complete does not contain gelling agents and leaves no residue on the skin - it's the Invisi-Feel™ result.

"84% of users prefer foam to gel due to being non-sticky and fast drying" ***

InstantFOAM™ Complete incorporates moisturizers to leave the skin feeling smooth and refreshed after use, helping to avoid skin dryness which can be associated with use of some sanitizers in high frequency usage settings.

Sustainability

This product is USDA Certified Biobased and contains 95% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit BioPreferred.gov.

This product is certified to meet EcoLogo UL 2783 Standard for Instant Hand Antiseptic Products. EcoLogo certifications are voluntary, multiattribute, life cycle based environmental certifications that indicate a product has undergone scientific testing, auditing, or both, to confirm its compliance with such standard. EcoLogo UL 2783 Standard sets criteria for product formulation and manufacturing, and human health & environment toxicity. For more information and to view the specific standard, visit UL.com/EL.

Safety

InstantFOAM™ Complete has been carefully formulated with safety in mind.

Hypoallergenic

Carefully formulated to minimize the likelihood of any adverse allergic reactions occurring during use.

Non-Irritating to Skin

Dermatologically validated to show that the product has good skin compatibility and is non-irritating.

Does not create antimicrobial resistance

The highly effective non-specific, multi-target antimicrobial action of the product ensures there is no risk of antimicrobial resistance.

Non-tainting to food

Independently tested and proven not to have the potential to taint food, making it safe for use in any food handling environment. NSF E3 certified.

Compatible with gloves

Independently tested to prove the product can be applied to hands prior to wearing latex, vinyl and nitrile gloves without effecting material integrity.

* Test Report BSL150826-201: An evaluation of the antimicrobial properties when challenged with 58 micro-organism species using in-vitro time kill ASTM E2783-11 method.
** FDA does not allow for virucidal claims. *** Independent research Commissioned by SC Johnson Professional®

Dispenser & Pack Formats

InstantFOAM™ Complete is available in a range of dispenser formats and pack sizes for use in different working and public environments, to facilitate compliance through ease of availability and use:

Personal and Tabletop Pump Bottles

Suitable for use around the workplace, at the point of need and for mobile work point.

CODE	CASE QTY	SIZE
1 IFC47ML	12	47ml Pump Bottle
2 IFC400ML	6	400ml Pump Bottle

Manual Dispensers & Cartridges

Lockable, reliable, low maintenance wall-mounted manual dispensers and hygienically-sealed 1 liter cartridge.

CODE	CASE QTY	SIZE
3 IFCIL	6	1 Liter Cartridge
4 IFSILDS	15	1L InstantFOAM™ Dispenser
5 SANILDS	15	1 Liter Sanitize Dispenser

Touch-Free Dispenser, Cartridge & Stands

Lockable, reliable, long-life battery touch-free dispenser and hygienically-sealed 1 liter cartridge. Suitable for wall-mounting or use on stands.

Hand sanitizing stations made to hold the touch-free dispenser. Note: dispenser sold separately.

CODE	CASE QTY	SIZE
6 IFCITF	3	1 Liter Cartridge for TF Ultra
7 AUTOINFCON	8	1 Liter InstantFOAM™ TF Ultra Dispenser
8 TFDISPSTAND	1	Touchfree Dispenser Stand
