Goatskin TIG Welding Glove

#370CTIG

For its light weight, goatskin is incredibly durable and tough. Laboratory tests were conducted subjecting various leathers to an equal number of abrasive wear cycles, followed by testing for tear strength. Goatskin came out on top with the highest tensile strength. These gloves are thoughtfully designed to create the best mobility possible.

Wide-fitting gauntlet for easy on and off, one-piece backs and Kevlar® sewn makes our supple goatskin leather an excellent choice for TIG welding gloves.
