Vinyl satchel

This light weight yet tough satchel is perfect for transporting a quantity of sorbents to the site of a spill. The satchel features high visibility red vinyl material with a wipe-clean surface and a Velcro fastening flap along with tough webbing handles. Stash them easily behind truck seats or in the toolbox. Great for indoor or outdoor use at construction sites or in off-road applications.

Spill kit's contents include:

10 x Pads size 38 cm x 46 cm (15" x 18")

The pads in this spill kit are medium weight sonic bonded meltblown polypropylene Chemical. They feature excellent wicking properties and sonic bond points that prevent stray fibres from becoming detached.

3 x Socks size 8 cm x 1.2 m (3" x 4')

These socks feature a spun-bond outer sleeve with a durable stitched seam. The core is a next generation absorbent that will recover aggressive and unknown spills. Durable plastic clips seal the sock at both ends.

1 x Waste Bag

These are made from a tough grade of polythene. There is also a cable tie supplied so that the waste can be secured safely.

1 pair of gloves

Waterproof gloves help to ensure safe handling of spilled substance.

1 pair of goggles

All-in one clear goggles provide eye protection from splashes.

This spill kits feature a combination of pads and socks that will contain and recover a 20 litre spill of hazardous oil-based and water-based fluid as well as the essential equipment needed to handle the clean up process. Please note extra caution should be taken when dealing with hazardous or unknown spill types.

Notes

- Refill 10 pad packs are available for this kit.
- Ensure that disposal of these used sorbents complies with all regulations.

Compliance

* Basis weights and recycled content are $\pm 5\%$

** Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.

*** Weight per case ± 0.5 kg/lbs.

Related Regulations	Description
