90° Countersink sets, SpyroTec

P Steel

M Stainless steel

Aluminum Titanium alloys H Hardened steel

• consisting of art. no. 5500

• 3 different convex cutting edges

- low-vibration cutting processes • for round and chatter-free countersinking
- considerably lower feed force required
- for universal application

HSCO Tool material Coating Shank form cyl.

5538

Series no.

○=Limited

 \bullet =Optimal
