Endurance blades offer faster cutting and extra long life for contractors. Carbide teeth made of C-6 grade micro ground carbide with a modified triple chip grind provide an anti-kickback design while keeping the cutting edge sharper for longer periods of time. A hardened alloy steel body is used to ensure straight, accurate cuts. All these features add up to a high quality blade that contractors can depend on, time and time again.

FIND RETAILERS

## FEATURES

- 6-1/2 in. diameter, 48 carbide teeth
- 5/8 in. arbor
- Anti-kickback design
- Cuts ferrous metals

## SPECIFICATIONS

Diameter	6-1/2 in.
Number of Teeth	48T
Arbor	5/8 in.
RPM	4,200
