

96" TRUE BLUE® I-Beam Level

Check the true vertical of a door frame or the true horizontal of a wall with the Empire® Level 96-Inch Heavy-Duty Aluminum Level. This tool features impact-resistant end caps that help protect the vials and frame from breakage during accidental drops. The all-metal frame of the Empire Level 96-inch heavy-duty aluminum level resists warping and corrosion for a long lifespan. Tough, acrylic e-BAND™ vials help improve the visibility of level and plumb readings by highlighting the edges of the bubble. Like many Empire Level anodized frame box beam levels, this tool features vial surrounds that let you view the vials in dim and bright lighting conditions. The TRUE BLUE® vials are fog and break resistant for long-lasting use. Shatter-resistant lenses prevent vial damage and are replaceable. The top read window on this Empire Level professional I-beam level helps ensure easy overhead viewing of the vials.

INCLUDES:

(1) [96" TRUE BLUE® I-Beam Level \(e80.96\)](#)

FEATURES:

- High impact acrylic e-BAND™ mono vials offer superior durability
- High contrast e-BAND™ vials highlight the edge of the bubble
- High contrast vial surrounds improve vial visibility
