

## Pocket Level

Take plumb and level readings almost anywhere with the Empire® Level Pocket Level. This tool's compact 5-inch size lets you place it into tight spaces where other levels might not fit. The durable Empire Level 5-inch pocket level has a strong, molded plastic frame that helps it survive even harsh job site conditions. It features a convenient top read window that lets you see your readings clearly from overhead as well as from the side. The Empire Level plastic pocket level has a built-in pocket clip for portability. It attaches securely to your pocket, belt or tool belt, allowing you to take it anywhere while keeping your hands free. When you're done, the level's small size means it fits in most tool boxes for easy storage.
