

REPLACEMENT ADF FOR JACKSON SAFETY MODEL 47101

Product # 47101-1 | Model #

Jackson® Safety Replacement Auto darkening Filters (ADF) feature world class optics, advanced technology, and continue to set the standard for professional-grade welding solutions. Replacement ADFs for Jackson Safety® Graphic Series Welding Helmet models 47100, 47101, 47102, 47103, 47104, and 47105.

- High end switching speeds reduce eye strain and fatigue
- Premium optical clarity produces a crystal clear view of the weld
- Intuitive controls allow quick and easy function selection
- Solar technology helps keep batteries charged for optimum results
- Includes sensors for optimum arc coverage

TECHNICAL SPECIFICATIONS

ADF Features	True Color Low Battery Indication Variable Shade
Certification	CSA Z94.3 ANSI Z87.1 CE
Filter Type	ADF Variable Shade
Optical Clarity	1/1/1/1
Power Supply	Solar/lithium
Sensitivity	Adjustable
Sensors	4
Shade Control	Analog/ Internal
Shade Range	3/5-13
Switching Speed (sec.)	1/20,000
TIG Amp Rating	>2A
Viewing Area	3.94" x 3.64"
Warranty	2 years
Weight (oz.)	7.6
Welding Mode	Cutting Grinding Welding
