

42" LOW-PROFILE BLOW-MOULDED CREEPER

Product # **355132** | Model # **JBMC-42440**

Jet® Tools creepers are designed to provide technicians with comfort, access, and capacity while working under vehicles, on the floor.

- **Design** – The JET Creepers offer an ergonomic design with a large working area, and with lengths ranging from 40" - 42", offer increased mobility and comfort.
- **Comfort** – The low-profile design of products 355102, 355112, and 355132 allow users to get under lower vehicles without having to hoist big trucks, while the wide-frame shoulder cut-out design provides greater comfort and flexibility of movement.
- **Capacity** – Choose from either 300-lb or 400-lb weight capacity, evenly distributed across a larger area of the frame for maximum strength and durability.
- **Swivel Casters** – The creepers include 6 professional-grade, polypropylene swivel casters for smooth and easy rolling (355163 has 4 casters). The extra-large wheels on 355116 provide the ability to easily roll over hoses or other larger shop debris.
- **Easy to Clean** - The frames of the creepers are protected from corrosion with a glossy black powder-coat finish, while the upholstery is resistant to most shop chemicals, making it very easy to clean.

TECHNICAL SPECIFICATIONS

Capacity (lb.)	440
Caster Material	Polypropelene, Polyurethane
Caster Size (in.)	2.5", 2.5, 3"
Duty Level	Heavy Duty
Height (in.)	4.65", 4.65
Length (in.)	42, 42"
Material	EVA Foam High Density Polyethylene
Number of casters	6
Over Ground Clearance (in.)	2.16, 2.16"
Special Features	Chemical Resistant Non Conductive Oil Resistant
Width (in.)	21", 21
