

# MECHANIC'S ROLLER SEAT

Product # 355154 | Model # JMS-641A

Jet® Tools roller seats are designed to provide technicians with comfort, access, and productivity while working around and under lifted and non-lifted vehicles.

- **Design** – Ideal for the workplace, JET's Mechanic's Roller Seats and Stools have a minimum 300-lb weight capacity with a sturdy frame that increases product strength and durability. Product 355163 provides high-low seating positions with back support
- **Storage** – Users can work more efficiently and store commonly used tools with products 355155, 355160 and 355163 that have convenient ball-bearing supported tool drawers and additional fold-up tool trays.
- **Casters** – The JET seats and stools feature 4 professional-grade polypropylene swivel casters for better movement (355161 has 5 casters). The 2.5"- 3" casters allow for better movement over cords, hoses, cracks, and shop floor debris.
- **Comfort** – The padded seats have a high-density thick foam for maximum user comfort and long service life.
- **Easy to Clean** – The stools and toolbox seats are protected from corrosion with a glossy black powder-coat finish, and the upholstery is resistant to most shop chemicals, making them very easy to clean.

TECHNICAL SPECIFICATIONS

Capacity (lb.)	330
