

# 20" HEAVY DUTY L-CLAMP

Product # 390532 | Model # JLHD-20

JLHD Series L-clamps feature an increased throat depth and heavy-duty cold-forged swivel pads for a wide range of applications.

- Made with increased throat depth and heavy-duty cold-forged swivel pads for maximum versatility
- Heavy-duty replaceable pads tilt up to 35° for better alignment to work piece
- Tempered drop forged sliding arm reduces clamping set up time and is ideal for high volume production work
- Rails, sliding arms, and spindles are heat treated for maximum strength
- High carbon Acme threaded spindle is spatter resistant
- Nickel-chrome plated rails are heat formed from cold drawn profiled steel
- Hidden spring applies tension to pad for easier set-up (models 390524 thru 390533)
- Hex bolster on spindle end allows use of wrench or socket for increased clamping force (models 390524 thru 390533)
- Replacement spindle and pads readily available
- Ideal for industrial, welding, assembly, fabricating, construction, and general-purpose clamping
