

20" SUPER DUTY L-CLAMP

Product # 390552 | Model # JLSD-20

Offering the ultimate in depth and strength, the JLSD Series L-Clamps deliver greater depth and clamping force than traditional clamps and is built with a drop-forged sliding arm to reduce set-up time.

- Delivers unequalled depth and clamping force compared to traditional clamps
- Tempered drop-forged sliding arm reduces clamping set-up time and is ideal for high-volume production work
- Rails, sliding arms, and spindles are heat-treated for maximum strength
- High carbon Acme threaded spindle is spatter resistant
- Nickel-chrome plated rails are heat-formed from cold-drawn profiled steel
- Replacement spindle and pads readily available
- Heavy-duty replaceable pads tilt up to 35° for better alignment to work piece
- Hidden spring applies tension to pad for easier set-up (models 390548 thru 390554)
- Hex bolster on spindle end allows use of wrench or socket for increased clamping force (models 39048 thru 390554)
- Ideal for industrial, welding, assembly, fabricating, construction, and general-purpose clamping
