

CRIMPED CONICAL (BEVEL) BRUSH (FOR ANGLE GRINDERS) - 5 X 5/8-11NC

Product # 554121 | Model # BC514T

- High speed crimped conical brushes are ideal for removing surface materials such as rust and paint in hard-to-reach corners and inside angles where cup brushes will not fit
- The conical (beveled) shape provides a more flexible brushing action which reduces wire fatigue for improved operator safety and service life
- Heavy duty industrial piano wire used to manufacture these brushes ensures long life, superior productivity and increased safety

TECHNICAL SPECIFICATIONS

Outside Diameter (O.D.)	5"
Threaded Arbor Hole	5/8"-11NC
Wire Diameter	.014"
