

JET-KUT GOLD PRENTICE BIT - M2 118° SPLIT PT BRONZE OX. FINISH - 1"

Product # 570464 | Model #

- Super Premium 118° Split Point Drill Bits – Bronze Oxide (Gold) Finish
- Made from heavy duty high molybdenum, hardened steel for increased consistency and greater wear resistance
- Flutes are ground to extremely tight tolerances for increased accuracy and consistency in the point and split grinding process, resulting in more accurate hole sizes
- Flutes have a thin nitro-carburized surface to provide extra wear resistance along the cutting edge of the point
- Special flute form enhances chip ejection, reduces drill retractions (woodpeckering) and improves coolant flow to the tip

TECHNICAL SPECIFICATIONS

Size	1"
Shank Diameter	1/2"
Pkg Qty	1
