

1/4" DR X 5/32" HEXTRACTOR HEX BIT SOCKET

Product # **677408** | Model #

The Hextractor™ hex bit sockets are designed to grip and turn rounded or damaged hex head nuts and bolts. The patented design will work on fasteners that are up to 85% rounded and will work just as well on new fasteners.

- Patented Hextractor™ design provides maximum grip and turn
- Ideal solution for standard, damaged, rusted, or rounded hex head fasteners
- S2 steel bit and CRV steel socket provide maximum strength and durability
- Provides same torque values as standard hex bit sockets
- Built to last and ideal for professional and industrial work environments

TECHNICAL SPECIFICATIONS

Drive (in.)	1/4
Finish	Chrome
Material	Chrome Vanadium S2 Steel
Selling Configuration	Open Stock
Size (in.)	5/32"
Socket Bit Length	Regular
Socket Bit Type	Hex
Socket Type	Standard
Standards	ANSI CDA39-GP-12b GGG-W-641E
