

1" DR 250 FT-LBS TORQUE LIMITING EXTENSION - YELLOW

Product # **684802** | Model #

Offering an extensive selection of professional limiting torque extensions for a wide variety of applications. Each offering unsurpassed accuracy, durability and performance to make sure the job gets done safely and efficiently.

- Identification – The Torque Limiting Extensions, or torque extension bars, have the size and torque ratings roll-stamped on the drive end for easy identification. The products are colour-coded, allowing workers to access and recognize frequently used sizes at a glance.
- Design – The square end of the extension is built with a socket retainer and is ideal for use with thin wall and mag wheel impact sockets for ultimate protection of expensive wheels and lug nuts.
- Features – Constructed with durable chrome molybdenum spring steel, the extensions have a powder-coated finish that provides superior scratch and corrosion resistance.
- Convenience – Available in ½" drive for passenger cars and light-duty trucks, and 1" drive for heavy-duty truck and trailer applications, the torque extensions will reduce the need for multiple adjustments and prevent interruptions to workflow.
- Sizes – JET offers an extensive selection of sizes and torque specifications to provide maximum speed, accuracy, and convenience. The sets include a carrying case for easy storage and organization.
- Ball detent keeps sockets firmly in place
- Size and torque rating are roll stamped for easy identification
- Long pattern design allows more clearance from the tire
- For use with ½" size air impact tools

TECHNICAL SPECIFICATIONS
