

9/16"-3/4" M14-M19 NO-DRILL IMPACT DRIVER SCREW EXTRACTOR

Product # 720756 | Model #

Jet® Tools no-drill impact screw extractors are made from a patented design that eliminates the need to drill a hole before extracting a screw.

- Patented design eliminates the need to drill a hole before extracting screw
- Works even when screw head is completely sheared off
- Coarse threads bite into screw and loosen it with each blow of impact driver
- Heat-treated SAE6150 chrome vanadium steel withstands repeated use
- Fits JET impact drivers and competitor's models with 5/16"-drive bit adapter
