

PICKLE FORK KIT - 5 PC

Product # H3448 | Model #

- A multi-purpose kit that features all the tools required to separate most ball joints, tie rods, pitman arms and shock absorber links
- 3 heavy duty forks are made from drop forged, heat treated steel
- 2 drive handles are made from alloy steel – one handle for use with regular hammers, the other features a .401 shank for use with most popular air hammers
- Forks can be used with either drive handles
- Pilot head designed handles absorb shock and protect threads from distortion
