

OIL FILTER CANISTER SOCKET - 36MM

Product # H3702-13 | Model #

- Specially designed low profile 3/8" sq. drive sockets used for removing oil filter canister cover on vehicles that have limited access
- Cartridge type oil filters are easier to change with these specialty sockets
- When using a conventional socket, the top side of the socket can contact other surrounding components which could cause damage or make it difficult to completely remove the oil canister cover
- Made from Chrome Vanadium Steel • Audi, BMW, Ford Trucks, Volvo and VW • WARNING: Do not use sockets on electric or air impact wrenches
