

Cutting Crimping Pliers, Insulated, 9-Inch

These Klein Tools 9-Inch Insulated Side-Cutting Crimping Pliers offer protection against electric shock up to 1000 volts. The pliers are individually tested to exceed the IEC 60900 and ASTM F1505 standards, for insulated tools, and clearly marked with the official 1000-volt rating symbol. The pliers offer maximum strength with their forged-steel construction and a crimping die helps provide increased leverage.
