

**A NEW TWIST  
IN ANTI-SEIZE  
TECHNOLOGY**

# E-Z BREAK<sup>®</sup>

## ANTI-SEIZE & LUBRICATING STICK COPPER GRADE

### NOW IN A STICK!

E-Z Break<sup>®</sup> Anti-Seize Compound is easier than ever to use. The unique twist-up holder lets you apply E-Z Break<sup>®</sup> exactly where you want it with no mess. This premium grade anti-seize and lubricating compound contains fine metallic particles which tenaciously coat and protect metal surfaces from corrosion due to heat, moisture, and pressure.

#### FEATURES

- No Mess, No Drips, No Spills
- Easy To Use, Twist Up, Apply, Twist Down
- No Waste, Use the Complete Stick
- No Separation, No Mixing Before Use
- Non-Toxic, Lead Free
- Protects against galling, seizing and corrosion
- Resists temperatures to 1800°F (982°C)
- Meets MIL Spec. A-907-E

#### ORDERING INFORMATION

Part No.	Size	Qty/Case	Wt/Case
08000	2-1/4 oz.	24	6 lb.

#### BENEFITS

- Handy stick form is easy to carry in your pocket or toolbox.
- Protects metal components for longer working life in harsh environments.
- Easy disassembly reduces downtime and labor costs.
- Provides for smoother assembly and reduced torque requirements for proper clamping load.

#### APPLICATIONS

- Nuts & Bolts
- Shafts
- Valves
- Splines
- Compressors
- Boilers
- Bushings
- Pumps
- Fans & Blowers
- Heat Exchangers
- Cylinder Assemblies
- And much more...

# E-Z BREAK<sup>®</sup> ANTI-SEIZE & LUBRICATING COMPOUND

## HELPS PREVENT COSTLY MAINTENANCE PROBLEMS.

E-Z Break<sup>®</sup> is a premium quality anti-seize and lubricating compound. It contains fine metallic particles which tenaciously coat and protect metal from heat, pressure, and corrosion.

### FEATURES:

- Protects against galling, seizing and corrosion.
- Serves as an extreme pressure lubricant.
- Non-settling formula.
- Non-toxic, lead free.
- Copper Grade resists temperatures to 1800°F.
- Nickel Grade resists temperatures to 2600°F.
- Reduces galvanic action between dissimilar metals.
- Copper Grade meets MIL Spec. MIL-A-907E.
- Copper Grade Authorized by USDA for use in federally inspected meat and poultry plants.

### BENEFITS:

- Protects components for longer working life in harsh environments.
- Easy disassembly reduces downtime and labor costs.
- Provides for a smoother assembly and reduced torque requirements for proper clamping load.

### NUCLEAR GRADE NOW AVAILABLE:

- Nuclear Grade is specially tested and certified pure for use in nuclear power plants.
- Nuclear Grade containers are labeled with batch numbers to provide traceability and certified purity.
- Nuclear Grade resists temperatures to 2600°F.

### APPLICATIONS

- Nuts & Bolts
- Shafts
- Valves
- Splines
- Compressors
- Boilers
- Bushings
- Pumps
- Fans & Blowers
- Cylinder Assemblies
- Heat Exchangers
- And much more...
