

# Markal **PRO-WASH™**

## Removable Paint Markers

Real paint washes off quickly and easily  
with water or mild detergent

Available in 2 Styles:  
Water Removable  
and Detergent Removable.

Markal's new Pro-Wash™ Removable Paint Markers use real paint to make removable marks on various types of non-porous surfaces such as metal, plastic, and glass. Available in two styles, Pro-Wash Removable Paint Markers easily wash away with either water (Pro-Wash W) or mild detergent with a pH level of 10 or higher (Pro-Wash D). Additionally, removed marks will not ghost or bleed through when a topcoat of paint is applied.

### **PRO-WASH™ W WATER REMOVABLE PAINT MARKERS**

Marks with REAL PAINT, marks can be removed simply with water or in a power wash process.

### **PRO-WASH™ D DETERGENT REMOVABLE PAINT MARKERS**

Marks with REAL PAINT, the water and weather-resistant paint can be removed with detergent solutions that have a pH level of 10 or above.

### **Typical Applications:**

- Ideal for quality control processes, parts assembly operations, color coding, defect identification and general marking applications.
- Available in six colors for color coding, for reject/accept quality control processes, parts assembly or to identify various shifts or operators.

**Aluminum**

### Features:

- For removable marking
- Marks with real paint
- Fast drying: 30-60 seconds
- Marks on metal, glass, plastic, and other non-porous surfaces
- Will not ghost or leave a residue when removed
- Durable 1/8" nib permits fine line marking or bold, thick marks visible from long distances
- Valve actuated tip releases paint on demand for smooth, continuous use
- High-strength, lightweight barrel designed for industrial use
- Rugged, vapor-lock cap design prevents nib dry-out when not in use
- Self-storing cap fits snugly on end of marker when in use
- Marking range: 0° - 150°F (-18° - 66°C)

### Recommended Industries:

- Aerospace
- Automotive
- Building & Construction
- Fabrication
- HVAC/Plumbing
- Large Equipment, Appliances & Machinery
- Ship & Girder Fabrication
- Welding
- Anywhere that removable marks are required
