

CoolPAK™ L3375

General Machining Oil

CoolPAK™ L3375 is a straight cutting oil designed for general machining. L3375 has an extreme-pressure package that provides very good finish and tool life.

Application Guidelines

- L3375 is for use in screw machines and bar-fed, multi-station machines
- The multi-metal compatibility of L3375 makes it an excellent choice where a shop is working with a wide variety of materials
- For additional product application information including performance optimization, please contact your Master Fluid Solutions' Authorized Distributor at 2trim.us/distributors.php, your District Sales Manager, or call our Tech Line at 1-800-537-3365

Physical Properties Typical Data

Color (Concentrate)	Brown
Odor (Concentrate)	Mild oily
Form (Concentrate)	Liquid
Flash Point (Concentrate)	> 306°F (ASTM D93-08)
Viscosity	20.3 cSt @104°F (40°C)
V.O.C. Content (EPA Method 24)	24 lb/g

Additional Information

- Before using on any metals or applications not specifically recommended, consult Master Fluid Solutions.
- This product should not be mixed with other metalworking fluids or metalworking fluid additives, except as recommended by Master Fluid Solutions, as this may reduce overall performance, result in adverse health effects, or damage the machine tool and parts. If contamination occurs, please contact Master Fluid Solutions for recommended action.

The information herein is given in good faith and believed current as of the date of publication and should apply to the current formula version. Because conditions of use are beyond our control, no guarantee, representation, or warranty expressed or implied is made. Consult Master Fluid Solutions for further information. Contact your Master Fluid Solutions' District Sales Manager for the latest version of this document. CoolPAK™ is a trademark of Master Chemical Corporation d/b/a Master Fluid Solutions.
