

8" x 8"
SPILLTRATION
HUSKY PADS

ABSORBS OIL. FILTERS WATER.

The 8" x 8" Spilltration Husky pads are designed to fit into our 8x8 Spilltration Basin. Husky Pads are smooch-packed to compress and fit in areas up to 80% smaller than traditional oil-only sorbents. Like all Spilltration products, ultra-thick Husky Pads are engineered as the first line of defense to absorb oils while allowing clear water to filter through.

ABSORPTION INFORMATION

1.7

gallons per pack
while allowing clean water to
filter through

13.6

gallons of absorption
per case of 8" x 8"
Husky Pads.

8" x 8" SPILLTRATION HUSKY PADS

Absorbs Oil. Filters Water.

The Spilltration family of products is engineered to cleanup oil leaks, drips and spills in the outdoors in rainy weather (or sunny). They work differently than old-fashioned sorbent products, because they:

- Absorb oil 50% faster
- Take up 4x less space
- Protect the environment better
- Minimize expensive cleanup costs
- Prevent environmental fines
- Save you money

Spilltration Husky Pads are engineered to absorb oil leaks and drips in the toughest spots at workplaces in the outdoors while filtering clean water at the same time.

8" x 8" Spilltration Pads are designed to fit as liners for 8" x 8" Spilltration Basin

Spilltration Husky Pads absorb oils while allowing clean water to filter through

RECOMMENDED FOR:

- Hydraulic Fluids
- Transmission Fluids
- Diesel
- Motor Oils
- Lubricants
- Other Hydrocarbons
