9441M

**String Knit
Specification Sheet**

PRODUCT DESCRIPTION:

Terry cloth gloves made with DuPont™ Kevlar® fibers are durable and will allow for longer wear and use. Terry cloth is usually made with looped pile because the loops act like very small sponges. Looped pile is also better able to withstand the strain of rubbing, pulling twisting and tugging by the user. Loosely twisted loops are softer and more absorbent than tightly twisted loops, which produce a rougher fabric. Long pile is more absorbent than short pile. The 9441SM features a regular weight material that has a cotton knit wrist and is cool and comfortable. CPPT Level 2

FEATURES:

- Kevlar® cotton terry glove
- Continuous knit wrist
- Cool and comfortable
- ANSI Level 2

APPLICATIONS:

Manufacturing, Food service, Glass handling, HVAC, Warehousing

TECHNICAL DATA FOR: 9441SM

Material Group	Strings
Product Type	String Knit
Glove Size	Small
Gauge	7 Gauge
Material	Kevlar
Made In	Mexico
