## Package Size Availability to Satisfy End-User Needs

### HANDY PACK

For the do-it-yourselfer.

### JOB PACK™

For the professional contractor or serious do-it-yourselfer.

### BULK

For the large contractor or for the retailer who wants single sheet selling.

## Self-Merchandising Product Tray

### DISPLAY CASE

For merchandising flexibility and restocking efficiency.

## Merchandising Solutions for Sheets

### 9" x 11" Sheet Merchandiser

- Part number 07660701113 8
- displays 9" x 11" bulk sheets, job packs, and handy packs
- individual, stackable trays from bottom to top for sturdy, free-standing counter display or pegboard/wall mounting without front to back movement
- durable wire gauge to withstand wear; won't bend or sag
- full width, front plate for quick product identification
- 4 trays/box

### Product Identification Strips

- Part number 07660703963 7
- must order with 9" x 11" Sheet Merchandiser (#01113)
- adhesive backed label for quick attachment
- color coded to match product category, bilingual
- individual grit labels provided to customize at retail
- 1 set/envelope

### 3-Way 9" x 11" Handy Pack Sheet Rack

- Part number 07660702296 7
- vertical, space saving 3-pocket rack for 9" x 11" handy packs
- sits on counter/shelf, mounts to an upright beam using washers on back to bolt through or hangs on pegboard
- price tag area per grit
- each pocket fits 15 packs
- 1 unit/box

### 9" x 11" Handy Pack Spacesaver Merchandiser

- Part number 07660748932 6
- space saving 3-pocket rack hangs on pegboard to display 9" x 11" handy pack sheets
- can be used horizontal (as shown) or vertical
- each pocket fits 15-20 packs
- 1 unit/box

### Grit Guide Header

- Part number 07660701967 7
- use with 9" x 11" Sheet Merchandiser (#01113) or any hand sanding set
- 11" w x 12" h header for selecting the right 9" x 11" sheet by application
- color coded to packaging, bilingual
- 1 unit/box

# 3X HIGH PERFORMANCE

expanded offering!

## Application

Superior sanding performance for a premium surface finish. Excellent on all surfaces and coatings. Will not clog, tear or transfer color.

## Grit Guide

Super Fine (400)	Final finish
Extra Fine (320)	Between coats sanding
Very Fine (220)	After priming, staining or sealing
Fine (180)	Final surface smoothing and initial between coats
Fine (150)	Fine surface preparation
Medium (120)	Light stock removal and surface leveling
Medium (100)	Moderate to light removal and stripping
Coarse (80)	Moderate removal and stripping
Coarse (60)	Heavy removal, stripping, dimensioning and shaping

## Features

- premium heat-treated aluminum oxide abrasive, P-graded
- flexible, fibre-reinforced backing
- non-pigmented, waterbased stearate (anti-clog) coating, open coat
- no color dye in coating process

## Benefits

- 3X longer product life and 3X faster cut rate than conventional aluminum oxide products
- consistent surface finish
- exceptional performance on all surfaces and coatings
- excellent life, flexibility and tear resistance when folded
- best resistance to clogging and loading during sanding
- no chance of color transfer to workpiece
- no finish contamination

**tip**

To make quick and easy clean up of dust, debris and liquid, use a micro-fiber cloth. It lifts and locks deep within the fibers unlike cotton cloths that scatter particles. Reusable 100s of times. Holds up to 8X weight in water. See page 17.

<b>RUBBER HAND SANDING BLOCK</b>				
<b>2-3/4" x 5-1/4"</b>				
07660743140 0	1	14**	01889	5

The resilient rubber sanding block adapts well to mild contours and flat surfaces. One of the most efficient hand block sanders available for dry or wet sanding.

<b>HAND SANDING SHEET KIT</b>				
<b>2-3/4" x 5-1/4"</b>				
07660748918 0	1	12**	1 Plastic Block; 2F, 2M, 1C 2-3/4" x 9" sheets	

Everything you need for household sanding jobs. A light, easy-to-load block that makes hand sanding easier. NOTE: You can cut a 9" x 11" sheet into 4 - 9" pieces to use as replacement sheets for your block.

<b>ERGONOMIC HAND SANDER DISC KIT</b>				
<b>5"</b>				
07660703968 2	1	1		

The unique shape and design quickly converts a 5" hook & loop disc into a hand sanding tool. The ergonomic shape fits the user's finger grip for added comfort and reduced fatigue.

# WOODSAND

## Application

For preparation of bare wood surfaces where stain or finishes are to be applied. The natural garnet abrasive imparts a fine, smooth finish on wood.

## Grit Guide

Very Fine (220)	For light sanding between stain and sealer
Fine (150-180)	For final sanding or cleaning of wood surfaces
Medium (100-120)	For moderate removal of surface imperfections
Coarse (50-80)	For heavy removal of wood and coatings

# WALLSAND

## Disc Application

Fits Porter Cable Drywall Sander, Model #7800. Aluminum oxide abrasive for an ultra smooth finish of drywall compound. Anti-clog coating on disc decreases loading and promotes optimal dust collection. The rugged hook & loop fastening system assures quick and easy disc change.

## Roll Application

Paper rolls offer an economical choice over precut sheets and screens. Generally preferred for larger jobs. Cut to desired length.

## Applications

### 3X HIGH PERFORMANCE NO-FIL ADALOX A259

Premium, P-graded aluminum oxide abrasive with fiber-reinforced backing. Specially coated to resist loading and tearing for 3X the life over conventional aluminum oxide products. First choice when performance counts on sanding tough finishes or looking for exceptional finish. High flexibility.

### PREMIUM NO-FIL ADALOX A275 (B-WT)

Premium, P-graded aluminum oxide abrasive resin bonded to a B-weight backing. Specially coated to resist loading and tearing over conventional aluminum oxide products.

### NO-FIL ADALOX A251 (A-WT)

For rough and preparatory dry sanding of painted or varnished wood surfaces. Aluminum oxide abrasive is specially coated with a waterbase zinc stearate to resist loading. High flexibility A-weight paper backing and improved resin bond for increased performance.

### ADALOX A211 (D-WT), A212 (A-WT), A213 (C-WT), A215 (A-WT)

For dry sanding hardwood, metal and composites by hand or machine. Long lasting, aluminum oxide abrasive is open coated on high tensile paper. A, C, D weight paper.

### E-Z FLEX METALITE K225 (J-WT)

For deburring, cleaning and polishing of metal. Rugged aluminum oxide abrasive is electro-coated onto a flexible cloth backing. Outperforms natural grains, like emery.

### GARNET A511 (A-WT), A513 (C-WT), A514 (D-WT)

For rough through finish hand sanding of softer woods and cabinet work. Use dry on bare wood prior to coating. Natural garnet abrasive is electro-coated on high tensile paper. A, C, D weight paper.

### TUFBK DURITE WATERPROOF T481 (A-WT), T461 (C-WT)

For sanding between coats of primers and other finishes on wood or metal with water or other lubricants. Diamond-like silicon carbide abrasive is electro-coated to a tough, waterproof paper backing.

### TUFBK DURITE WATERPROOF T402 (A-WT), T414 (A-WT)

For generating the ultimate finish in wet sanding applications. The premium ultra fine silicon carbide abrasive combined with a unique A-weight paper and strong resin bond system provides ultimate flexibility, long life and wet curl resistance.

### TUFBK DURITE WATERPROOF T247 (B-WT)

For wet or dry sanding between coats as well as final sanding. The premium ultra fine P-graded aluminum oxide abrasive is coated on a durable B-weight paper providing an ultra fine finish with improved tear resistance.

### NO-FIL DURITE A413 (B-WT), A414 (A-WT)

For sanding between coats of primers and other finishes. The combination of sharp silicon carbide abrasive, a strong resin bond and special anti-clog coating gives it increased sanding life in dry applications. Use the A-weight version when looking for a high flexibility backing for longer life and increased performance.

### EMERY K622

For scouring and polishing non-rated metals and utensils. Emery abrasive is durabonded onto a flexible cloth backing.

# ROLLS

## Cloth Application

For general purpose sanding where flexibility and tear resistance are most important. Cloth backing provides increased strength and durability.

- hand strapping
- light deburring
- blending machine tool marks
- cleaning pipe & tubing

## Screen Application

For sanding where life and load resistance are most important. Coated on both sides with silicon carbide abrasive, the open mesh design also allows you to rinse and reuse.

- sanding plastic pipe prior to gluing
- preparing copper pipe and fittings prior to soldering
- sanding softer materials where loading is a major problem such as plaster, wood, drywall, brass, etc.

## Paper Application

For fast, easy sanding when long life and consistent finish are most important. High strength latex backing offers superior strength and reduced edge wear. PSA backing for easy on/off.

- preparing primed and painted surfaces
- bare wood sanding

**THE MUSCLE BEHIND THE MACHINE™**

# ABRASIVES SPONGES

## Application

Flexible sanding abrasive for curved, contoured or flat surfaces of wood, metal, paint, plastic, ceramics and drywall.

## Features

- durable, abrasive coated foam
- easily conforms to shapes and contours
- washable
- various sizes and grit combinations

## Benefits

- lasts up to 5X longer than sandpaper
- resistant to tear
- can sand into areas unreachable by sandpaper sheets
- long life
- rinse and reuse
- maximum versatility and flexibility for application needs

## Unique!

Patent pending V-groove sanding system exclusive to Norton. Designed to fit our ergonomic handles.

## 3X Small Area Sponge Tower

- Part number 07660702662 0
- 12 each of 02649, 02648, 02647
- 36 sponges/tower
- use to cross merchandise 3X small area sponges in paint, crafts, moldings and unfinished wood furniture
- sturdy, corrugated design - can stay free standing or come apart to strap to an upright
- disposable displayer

## MultiSand Bonus Pack Display

- Part number 07660702670 5
- 75 Medium Sponges of 02081
- Dimensions (assembled): 42"H x 17"W x 17"D (shippable): 21"H x 17"W x 17"D
- Weight - 18 lbs.
- Cube - 3.5 cu. ft.

## 3X Contour Sponge Tower

- Part number 07660702663 7
- 20 each of 02655, 02654, 02652
- 60 sponges/tower
- use to cross merchandise 3X contour sponges in paint, crafts, moldings and unfinished wood furniture
- sturdy, corrugated design - can stay free standing or come apart to strap to an upright
- disposable displayer

## Extra Large Paint and Drywall Sponge Display

- Part number 07660702265 1
- 96 Fine/Medium Sponges of 01210
- Dimensions: 38"H x 15"W x 14.5"D
- Weight - 25 lbs.
- Cube - 5 cu. ft.

## 3X Small Area Dump Bin

- Part number 07660705270 4
- 100 Medium Sponges of 02648
- use to cross merchandise 3X small area sponges in high traffic areas
- Dimensions: 30-1/2"H x 15.5"W x 15.5"D
- Weight - 9 lbs.
- Cube - 1.5 cu. ft.

## Generic Sponge Dump Bin

- Part number 07660703857 9
- empty corrugated display for cross merchandising any sanding sponges in dump bin style
- disposable displayer
- 1 unit/box

## 3X Extra Large Sponge Display

- Part number 07660704745 8
- 96 Medium Sponges of 03859
- Dimensions: 41.5"H x 15.5"W x 20"D
- Weight - 25 lbs.

## 3X Small Sponge Handle Counter Display

- Part number 07660704142 5
- 8 handle/sponge combos 03866
- full color, eye-catching trilingual graphics
- use to cross merchandise Norton 3X handle combination at the paint counter or check out
- disposable displayer

# NON-WOVEN

## Application

Flexible, non-woven pads are ideal replacements for steel wool for heavy duty cleaning and stripping through finishing to light duty polishing:

- won't rust, shred or splinter
- washable and reusable
- can be cut or folded
- use with/without chemicals

### Clean & Prep

A unique system for stripping, sanding, cleaning and applying finish with fast results, less mess and easier clean up. Color coded by application. Step 1 – Strip & Clean, Step 2 – Sand & Clean, Step 3 – Apply & Clean.

### Grip-On

- Removes flaking paint, varnish, surface rust and corrosion while keeping hands away from chemicals.
- Will not damage or change profile of surface being cleaned.
- Reusable handle. Replaceable stripping pad.

new!

# CLOTHS / MITTS

## Applications

Micro-fiber is a single fiber with a thickness less than a human hair that has been split 16 times and woven into various products. The surface area of the micro-fiber product is increased over 15 times, creating millions of spaces between the fibers which trap dirt, grime or liquids, making this product one of the most absorbent materials.

These “V” shape splits, while less than a micron in size, have edges that collect debris as opposed to pushing debris away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles. Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities. Micro-fiber products save you labor time and additional costs of multiple cleaning products and chemicals.

Use the micro-fiber products dry for general cleaning. To remove spills, stains or grime, lightly dampen the product for best results. All micro-fiber products can be used with or without chemicals.

**tip** Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

### Micro-Fiber Cleaning Cloth (Blue)

Used for general wet or dry applications. Works best when sprayed with a light water mist to deep clean.

### Micro-Fiber Dry Tack Cloth (Red)

The woven terry cloth has a low profile to resist snagging and help pick up embedded debris. This cloth is used in dry tack applications.

### Micro-Fiber Polishing Cloth (Yellow)

Streak free cleaning of mirrors, optical lens and high polished items.

### Micro-Fiber Cleaning Mitt (White)

Double sided dusting mitt can be used for wet or dry applications. Hand fits inside. Great for corners. For best results lightly dampen the mitt for heavy cleaning.

### Tack Cloth (Non-microfiber)

Special “tacky” coating picks up sanding residue and loose dust to ensure a quality, smooth, final finish. Disposable.

# MOPS / SHEETING

## Application

### Makes Conventional Mops Outdated

Using the micro fiber mop and floor cleaner as a cleaning system after floor installations provides the best, most cost effective way to remove grease, oil and dirt to leave wood floors with a glistening shine.

### Floor Cleaner

- Ready-to-use, one step application for all finished hardwood and laminate floors.
- Unique formula dries fast with no residue.
- Rejuvenates shine on older finishes.
- Protects floor from dulling in high traffic areas.

### Micro Fiber

- Attracts dirt and debris like a magnet within the v-shaped splits of the fibers rather than just pushing it around like cotton mops.
- Pad can be washed and reused hundreds of times.
- Hook and loop fastening strips for easy on and off.
- Swivel head makes maneuvering around furniture easy.
- Telescoping handle adjusts for all user heights and reaches walls and moldings as well.

NOTE: Blue Magnet Mop Kit contains swivel/threaded telescopic steel pole, mop head, micro fiber pad and floor cleaner.

# SPONGE PADS

## Commercial Cellulose Sponges

Cellulose sponges are made of durable, high quality cellulose. These sponges will hold many times their own weight in liquids, which gives you maximum absorbency for spills or carrying cleaning solutions. Sponges are available in three convenient sizes for any application.

## Non-Woven Sponges

**#63/875 Clean 'N Sponge Light Duty**  
Cellulose sponge carries water or cleaning solution to the job and later wipes up residue. Excellent for cleaning vitreous china sinks, tubs, toilets, ceramic, plastic and rubber, tile countertops, desks, screens, etc. Non-woven material has gentle cleaning action.

new!

## 2-in-1 Erasing/Cleaning Pad

One side white melamine foam to clean virtually any surface of marks or scuffs without chemicals or sprays - ink, crayon, soap scum, etc. One side blue polyester foam to wipe away residue. Toss when melamine is degraded.

## #74/893 Scour 'N Sponge General Purpose

Cellulose sponge carries water or detergent to the job surface. Extra strong non-woven material scours, scrubs and cleans the area. Sponge carries residue away. Excellent for cleaning stoves, counters, cooking utensils, ceilings and walls.

# CLOTH DISCS

## Application

- rough sanding of primed and painted surfaces
- stripping paint and primers
- blending, leveling and finishing
- heavy stock removal of wood, metal, plastic and fiberglass
- sanding inside and outside corners, contours or flat surfaces
- dimensioning and finishing metal workpieces
- dimensioning and finish sanding of bare wood

## Grit Guide

Fine (120)	For light sanding/finishing or cleaning of surfaces
Medium (80)	For moderate removal of imperfections
Coarse (50)	For rough sanding of primed or painted surfaces as well as dimensioning

**NORTON**

**THE MUSCLE BEHIND THE MACHINE™**

# FLAP DISCS

## Application

- metal fabrication
- blending welds
- deburring
- cleaning, stripping, and finishing

**NOTE:** Use at 15°-25° angle. More severe angles will weaken edges.

## Grit Guide

Fine (80-180)	For light finishing and sanding of surfaces prior to priming or finishing (painting)
Medium (40-60)	For surface blending and moderate removal of wood, metal, light paint, varnish or rust
Coarse (24-36)	For rough grinding and heavy removal of coatings, rust or scale on wood, metal or fiberglass

## Norton 20X

Features	Benefits
• grinding and finishing with the same wheel	• no switching from a depressed center wheel to fibre disc
• zirconia alumina abrasive cloth (NorZon)	• lasts 20X longer than fibre discs
• angled flaps	• high rate of stock removal
• phenolic resin backing plate	• built-in angle for grinding
	• more abrasive makes contact with the work surface
• stacking of abrasive flaps	• lightweight
	• will not smear the workpiece
	• wears uniformly with flaps
	• more comfortable to grind with

## Air-Cooled Rubber Back-up Pads

- Designed for medium to heavy grinding applications.
- Slotted aluminum hub design draws cool air behind the disc.
- Curved ribs on the rubber face force heat away from the disc and back-up pad.
- Cooler cutting action reduces disc loading and increases grinding life.
- All pads have a 5/8"-11 threaded female hub for mounting.
- Firm pads provide more aggressive cut; medium pads offer greater flexibility.
- Use with Norton fibre discs to maximize cut and life.

# RAPID STRIP

## Non-Woven

### Features

- unique, semi-flexible open web design
- extra coarse abrasive uniformly distributed and bonded throughout the wheel

### Benefits

- resists loading
- conforms to edges and contours as well as uneven surfaces without gouging
- runs quietly and safely
- use face and edge
- aggressive free cutting action for removing paint, rust and coatings without smearing
- removing light edge burrs, parting lines or flashing

## Wire

### Features

- reversible hex-mandrel shaft
- low heat & pressure operation
- high speed chiseling action
- secured metal strands in patented, flexible brush system

### Benefits

- eliminates slippage and provides easy reversal of the unit
- prevents distortion to the workpiece
- strips and cleans substrate in one step
- no wire splinters
- no tearing of edges
- self-sharpening

# BULK DISCS

## Film and Waterproof

Norton film discs are made with a high strength polyester film backing and micron-graded aluminum oxide grain for fast cutting and consistent finish to help you achieve superior finishing of acrylic solid surfaces. They are available in PSA (pressure sensitive adhesive) discs and convenient Speed-Grip (hook and loop) discs.

Norton fine grit waterproof paper discs create exceptional finishes on wet applications.

## Typical Applications

- Seam blending
- Surface refinishing
- Surface finish improvement

### **BEST** No-Fil Microfinishing Film Q130 – The choice for solid surface applications

FEATURES	BENEFITS
• Premium, micron-graded aluminum oxide grain	• High cut rate – for leveling; high quality finish with finer grits
• Extremely uniform 3mil film backing (substrate)	• Generates a very uniform surface
• Stearated (No-Fil); open coat	• Generates a superior finish
	• Increased tear resistance; can be used wet
	• Reduced loading; extended life with better finish

### **BEST** Polyester Film Q132 Discs – For clear-coat repair applications

FEATURES	BENEFITS
• Premium aluminum oxide abrasive	• Fast cut and extended life
• 7 and 9 micron-graded abrasive grain particles	• Provide very fine finish
• Polyester film backing	• Very flexible and tear-resistant; can be used wet
	• Smoothest surface for best finish
• Special resin bond system	• Reduced loading – resulting in longer life

### **BEST** Black Ice T402 Paper Discs – For clear-coat repair applications (wet)

FEATURES	BENEFITS
• Premium, ultra fine (2000 and 2500 grits) silicon carbide abrasive	• Best finish in wet clear-coat repair applications
• Advanced resin bond system	• Longer life in wet applications
• Advanced, A-wt waterproof paper backing design	• Ultimate flexibility and waterproof performance

### **BETTER** Tufbak Waterproof T247 Paper Discs – For exceptional finishes (wet)

FEATURES	BENEFITS
• Heat-treated, P-graded aluminum oxide, B-wt. backing	• Designed for intermediate applications
	• Consistent cut and finishes; flexible
• New superior grain technology	• Ideal for metallurgical analysis applications
	• Grinds extremely cool with minimum impact on workpiece
	• Provides a strong foundation for uniform grain coating and adhesion, resulting in longer disc life and better finishes

### **GOOD** Tufbak Waterproof T461 Paper Discs – For excellent finishes (wet)

FEATURES	BENEFITS
• Silicon carbide; C-wt. backing	• Fast initial cut rate
• New superior grain technology	• Ideal for metallurgical analysis applications
	• Grinds extremely cool with minimum impact on workpiece
	• Provides a strong foundation for uniform grain coating and adhesion, resulting in longer disc life and better finishes

### Recommended Solid Surface Sanding Sequence – For Acrylic Solid Surface

#### Option 1: Starting with No-Fil Microfinishing Film Q130

	MATTE FINISH	SEMI-GLOSS FINISH	HIGH-GLOSS FINISH
Step 1	Q130 – 100µ with a low profile soft density pad	Q130 – 100µ with a low profile soft density pad	Q130 – 100µ with a low profile soft density pad
Step 2	Q130 – 60µ with a low profile soft density pad	Q130 – 60µ with a low profile soft density pad	Q130 – 60µ with a low profile soft density pad
Step 3	Bear-TEX A/O VF finishing disc/hand pad (maroon)	Q130 – 30µ with a low profile soft density pad	Q130 – 30µ with a low profile soft density pad
Step 4		Bear-TEX S/C MF Micro-finishing disc/hand pad (gray)	Q130 – 15µ with a low profile soft density pad
Step 5			Q130 – 9µ with a low profile soft density pad
Step 6 Optional			Bear-TEX S/C MF Micro-finishing disc/hand pad (gray) or Bear-TEX Non-abrasive polishing disc/hand pad (white)

#### Option 2: Starting with No-Fil A275 Paper Products

	MATTE FINISH	SEMI-GLOSS FINISH	HIGH-GLOSS FINISH
Step 1	A275* – P120 with a low profile soft density pad	A275* – P120 with a low profile soft density pad	A275* – P120 with a low profile soft density pad
Step 2	A275 – P180 with a low profile soft density pad	A275 – P180 with a low profile soft density pad	A275 – P320/400 with a low profile soft density pad
Step 3	Bear-TEX A/O VF finishing disc/hand pad (maroon)	A275 – P320 with a low profile soft density pad	A275 – P600/P800 with a low profile soft density pad
Step 4		Bear-TEX S/C MF Micro-finishing disc/hand pad (gray)	A275 – P1200 with a low profile soft density pad
Step 5			Bear-TEX S/C MF Micro-finishing disc/hand pad (gray) or Bear-TEX Non-abrasive polishing disc/hand pad (white)

\* FOR LONGER LIFE USE P120 GRIT NO-FIL NORTON SG A975 PAPER DISCS.

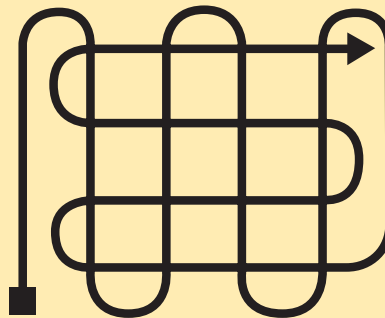

## TECHtips

- To reduce the chance of swirl marks or an uneven scratch pattern on the surface, ensure the sander's pad face is clean before attaching the disc. Air powered sanders require sufficient air supply to maintain tool speed during use. Proper air hose and coupling size are essential.
- Place disc sanders flat on surface to be sanded, before you start sanding. When removing the sander from the workpiece, smoothly pull the operating sander off the edge of the work.
- Wipe the surface with a micro-fiber cloth to remove debris between sanding steps to minimize contamination and abrasive particle scratches.

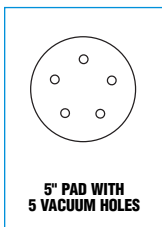

It is the user's responsibility to refer to and comply with ANSI B7.1

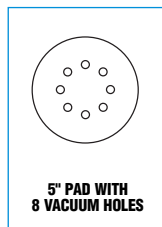

- Use the following sanding pattern outlined to ensure a consistent finish.

# BULK DISCS

## NORaX Film

NORaX U288 film discs have been developed specifically for solid surface finishing, producing superior finishes without sacrificing cut rate. These discs are available in PSA (pressure sensitive adhesive) and Speed-Grip (Hook & Loop).

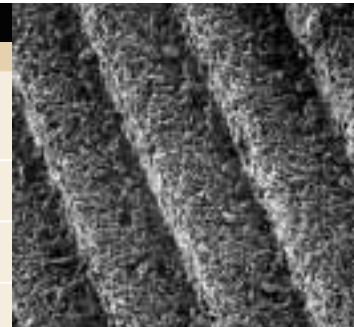

### Typical Applications

- Solid surface finishing

For the proper solid surface sanding technique, see the Tech Tip on page 31.

BEST		NORaX U288 Film Discs – For solid surface finishing	
FEATURES		BENEFITS	
• Multiple aluminum oxide abrasive layers with an engineered trihelical surface	• Produces excellent, smooth, consistent finishes and gloss readings, and superior cut rates		
• Unique resin bond designed for solid surface applications	• Creates an optimal blend of aggressive cutting and polishing action		
• 3-mil polyester film backing	• Lasts up to 10 times longer than conventional coated discs, reducing cost and downtime; greatest productivity		
• Color-coded micron grading	• Easy identification and match to the applications		

## NORaX PSA and Speed-Grip Discs

STEP #1	U288	X45	Damp	U288	X45	Damp
STEP #2	U288	X35	Damp	U288	X35	Damp
STEP #3	U288	X10	Damp	U288	X10	Damp
STEP #4	-			Bear-Text MF S/C Dry		
	Gloss = 12 to 15			Gloss = 45+		

NOTE: Step 3 in the matte finish may be substituted with Bear-Text MF S/C disc.

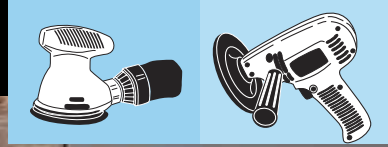

It is the user's responsibility to refer to and comply with ANSI B7.1

# BULK DISCS

## Paper

For use on random orbital and rotary sanders. The industry's highest performing and broadest selection of paper discs in Stick & Sand disc rolls, Speed-Grip (hook and loop), PSA (pressure sensitive adhesive) and standard attachment mechanisms.

## Typical Applications

- Preparing primed and painted surfaces for finishing
- Stripping primer and paint
- Sanding of plastic and fiberglass
- Light weld blending and deburring
- Bare wood sanding
- Finishing metal of all types

### **BEST** No-Fil Dry Ice Norton SG A975 – For the most demanding DA sanding applications

FEATURES	BENEFITS

## FLEXIBLE DIAMOND PSA DISCS

### Application

Diamond discs are used in applications where the inherent sharpness of diamond facilitates fast stock removal. For grinding glass, ceramics and composites as well as removing rust and scale on other materials. The PSA backing allows for quick and easy mounting and removal.

## PSA Disc Roll Dispenser

Norton disc roll dispenser features heavy-duty construction and a rubberized finish to protect your product, as well as the finish on your workpiece. These versatile dispensers are designed to accommodate any 5" or 6" disc roll or sheet roll. They can be attached to a wall or stacked for multi-grit or multi-diameter operations. Discs are individually dispensed and removed from the roll by a cutter bar.

DESCRIPTION	STD. PKG.	UPC NO.
SINGLE DISC ROLL DISPENSER	1	63642542772
DOUBLE DISC ROLL DISPENSER	1	63642502981

## Tapered Pads for Dual Action/Random Orbital Sanders

Designed with medium density polyurethane foam and a tapered edge for conformability, these pads are firm enough for flat surfaces, yet soft enough for severe curves and contours. Available with either PSA (vinyl) or Hook & Loop faces in vacuum or non-vacuum. The 5" and 6" pads are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for use on random orbital or dual action sanders. The 8" pad has a 5/8"-11 threaded female hub.

DESCRIPTION	MAX. RPM	STD. PKG.	UPC NO.
5" PSA	10,000	5	63642503112

8" PSA	6,000	5	63642543112
8" HOOK & LOOP	3,200	5	63642543704

## Soft Foam Interface Pads

The polishing adapter pad converts your standard Hook & Loop pad into a soft polishing pad. The foam adapter is 3/8" thick and is excellent for fine grits where minimal removal is required. It is ideal for either flat or contour surfaces.

DESCRIPTION	STD. PKG.	UPC NO.
5" HOOK & LOOP	10	63642503121
5" HOOK & LOOP WITH 5 VACUUM HOLES	10	63642503122

## Half Moon Hand Pads

The unique half moon pad uses a standard 5" x 0 Hook & Loop disc folded in half, which adheres to the hooks on the pad face. The straight edge of the pad allows the operator to sand corners, contours, narrow crevices and minute imperfections without over sanding.

DESCRIPTION	STD. PKG.	UPC NO.
5" x 0 HOOK & LOOP PAD	10	63642502768

## Disc Hand Pads

Hand pads eliminate finger sanding and are available in three thicknesses: 1", 3/8" and 3/16". The 1" thick pad is composed of two layers, neoprene and polyester foam, for excellent conformability and softness, resulting in fine finishes. Both the 3/8" and 3/16" thick pads are composed of a single layer of neoprene foam. The 3/8" is designed for moderate contours and the 3/16" is designed for maximum flexibility, both producing excellent finishes. Each pad has an elastic hand strap to hold it firmly in place. All are available with either PSA (vinyl) or Hook & Loop faces.

DESCRIPTION	STD. PKG.	UPC NO.
5" x 3/16" PSA	10	63642503111
5" x 1" PSA	10	63642502842
5" x 3/16" HOOK & LOOP	10	63642503118
5" x 1" HOOK & LOOP	10	63642503117

## Ergonomic Palm Sanders

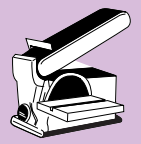

Ergonomic palm sanders are uniquely designed to be user-friendly with finger indentations for the operator. They quickly convert a standard Hook & Loop 5" or 6" diameter disc into a palm sander for finishing flat surfaces.

	STD. PKG.	UPC NO.
5" HOOK & LOOP	5	63642503147
6" HOOK & LOOP	5	63642503149

# PORTABLE BELTS

## Application

- high speed sanding and finishing of flat surfaces on wood, plastic, and fiberglass
- grinding and finishing of all metals
- blending welds
- abrasive planing of wood

## Grit Guide

Fine (120)	For final sanding of surface prior to priming or applying stain
Medium (80-100)	For moderate removal of surface imperfections, light paint, varnish or rust
Coarse (50-60)	For heavy sanding and stripping as well as leveling depressions
Ex. Coarse (36-40)	For extra heavy sanding or abrasive planing

## Norton 3X

Features	Benefits
• premium, self-sharpening zirconia alumina abrasive	• 3X total performance of life and cut rate vs. aluminum oxide
• bi-directional belt splice	• can be run in both directions for maximum sanding life
• open coat	• reduced loading

## Bulk Wire Tray

- Part number 07660702266 0 (2 trays/box)
- modular unit for displaying portable belts on pegboard
- set belt boxes on wire tray to hold belts and identify size and grit
- can also be used for other products as a shelf unit
- multiple racks can be positioned vertically and/or side by side for maximum impact

## Cut-off Wheel Application Recommendations

- METAL** = steel, stainless, iron, sheet metal
- MASONRY** = concrete, brick, cinder block, cement, patio stones
- ASPHALT** = asphalt, green concrete
- ALUMINUM** = aluminum, bronze, copper

## Right Angle Grinder Cut-Off Blades

Unique, thin design for:

- cleaning, slotting and cutting metal and masonry
- cutting metal studs, angle iron, tubing
- cutting autobody panels
- cutting sheet metal

### Short Peg Rack

- Part number 07660702270 7
- holds 4", 4-1/2", 5" bulk depressed center wheels, cut-offs blades or fibre discs
- over tag area for price label
- empty wire displayer
- 6 units/box

### Single Stack Blade Rack

- Part number 07660702273 8
- holds 6-1/2", 7", 8", 10" bulk cut-off blades
- holds 7" bulk diamond blades
- holds 5", 7", 9" bulk fibre discs
- display on pegboard or shelf
- front plate for pricing and store info
- empty wire displayer
- 2 units/box

### Long Peg Rack

- Part number 07660702274 4
- holds 7" hubbed depressed center wheels
- holds other mid-size diameter discs requiring better dispersement of product weight
- over tag area for price label
- empty wire displayer
- 2 units/box

## Depressed Center Wheels

1/4" are designed for:

- offhand stock removal of all types of metal and masonry
- smoothing welds
- pipe beveling

1/8" are designed to be used at a 90° angle for:

- offhand cut-off of all metal and masonry materials
- notching or cleaning pipes and weld beads

## Chop Saw Reinforced Blades

For use on low horsepower cut-off machines. These machines can be easily moved, but the workpiece is carried to the machine. Especially popular in the construction industry because of its portability and ability to provide a straight, clean cut.

### PRIMARY USES INCLUDE:

- cutting metal studs, rebar, angle iron, and tubing

\*MAXIMUM OPERATING SPEED BASED ON 1/2" OVERHANG.

**tip** Use "A" or "B" shapes for medium to heavy duty blending.  
Use "W" shapes for offhand and precision grinding of medium to heavy stock.

### Record Slot Wheel Rack

- Part number 07660702269 1
- holds 12", 14" or 16" bulk cut-off blades, chop saw blades or diamond blades
- can fit 2 sku's per rack or 1 sku, doubled up
- display at base due to product weight
- wire displayer (product not included)
- 2 units/box

### Pocket Wheel Rack

- Part number 07660705347 3
- holds 12" blades in bottom pocket and 12" or 14" in top pocket
- fits 2 sku's per rack or 1 SKU, double faced
- design more evenly distributes product weight and provides enhanced visibility of item(s)
- wire displayer (product not included)
- 1 unit/box

### Literature Pocket

- Part number 07660702291 2
- shipped flat – must assemble before using
- sit on counter/shelf or use provided pegboard dart clip to hang on pegboard display
- holds safety messages or small brochures (not included)
- 1 unit/box

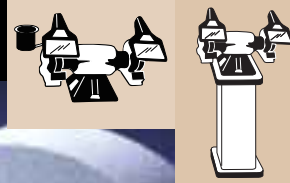

\*\*PACKAGED IN CONVENIENT DISPLAY CASE FORMAT. NO INNER MINIMUM PACKAGE.

# GRINDING WHEELS / BLADES

## Bench & Pedestal Wheels – High Performance

Bring back your high speed dry grinders! The fastest cutting wheels on the market are also the coolest. A constant supply of sharp cutting points with Norton's patented SG (ceramic alumina) grain gives the Premium Norton 3X blue wheels an incredible burn free cut with controlled micro fracturing of the grain. Great for all bench and pedestal operations, especially hollow grinding of plane blades and chisels.

### Norton 3X

#### Features

- Patented Norton SG grain
- Nest bushings
- 46-100 grit

#### Benefits

- Fast cut
- Minimal burn
- Long wheel life
- Fits all bench grinders
- Meets all finish needs

### ACCESSORIES FOR BENCH & PEDESTAL GRINDERS

#### HANDY PACKS DRESSING STICKS

076607	<b>10466</b> 3	1 x 1 x 6	Silicon Carbide - Medium	1/10**
662601	<b>48820</b> 7	Diamond Dresser with handle - IAGHD		1/5

Norton multi-point diamond dresser is designed specifically for dressing 3X wheels. It removes all glazing on the surface of the wheel, brings the wheel back to a straight face and supplies fresh, sharp abrasive grains on the surface of the wheel. 3X wheels do not need to be dressed as frequently as aluminum oxide wheels, but will need to be done when burning is noticed. Designed with full size handle for easy offhand use.

**In order to keep your grinding wheel free cutting and round in between truing, we recommend the use of an abrasive dressing stick. Simply move the dressing stick back and forth across the grinding face of the wheel in motion.**

# GRINDING WHEELS / BLADES

## Bench & Pedestal Wheels – Standard

For use on all bench and pedestal mounted grinders for offhand deburring, sharpening, shaping and limited stock removal on all types of material. Telescoping plastic bushings allow the wheel to fit most standard arbor sizes.

### Basket Bench Rack

- Part number 07660702272 1
- holds 6" - 8" bench & pedestal wheel boxes
- can also hold 7" job pack circular saw cut-off blade boxes
- front plate for pricing and store info
- wire displayer (product not included)
- 2 units/box

### ARBOR ADAPTER BUSHINGS

DIA.	CENTER HOLE	BUSHINGS INCLUDED

# DIAMOND WHEELS / BLADES

## Application

Diamond blades are the choice of professionals vs abrasive blades with faster cut rate, constant depth of cut and less downtime. Choose 300X for maximum productivity, longest life and lowest total cost. Choose 100X for high productivity, life and value.

Segmented	Turbo	Continuous
<ul style="list-style-type: none"> <li>• Most aggressive cutting action for general purpose and masonry.</li> <li>• Use when cutting speed and productivity are more important than finish.</li> <li>• Best life. Best Cut Rate. Good Finish.</li> </ul>	<ul style="list-style-type: none"> <li>• Aggressive cutting action with a smoother quality of cut.</li> <li>• For use on harder materials, such as granite, marble and stone, to reduce chipping.</li> <li>• Better Life. Better Cut Rate. Better Finish.</li> </ul>	<ul style="list-style-type: none"> <li>• Provides the smoothest of cuts. Best performance when used wet.</li> <li>• For use on porcelain, tile, marble and other hard materials requiring a high quality cut.</li> <li>• Good Life. Good Cut Rate. Best Finish.</li> </ul>

**DUO** – Patented split segment design provides exceptional cool cutting with faster cutting speeds and longer product life. The most versatile blade for hard and medium/soft materials, dry/wet.

**AEROJET** – Improved stability for more accurate and quality cutting. Extremely fast cutting of hard materials, dry/wet.

**Ductile** – A "riddled" steel core enhances the cooling of the blade by creating a strong air flow. Highly versatile. Cuts ductile iron pipes, angle iron up to 1/2" thickness, rebar up to No. 5 and medium/hard materials.

# SHARPENING STONES

## Application

Norton has been the world leader in sharpening stones for over 100 years for every professional market. Our retail packaged line brings the same quality to the DIY market. Diamond stones are the latest addition which provides the optimum in performance and life. Abrasive stones are designed for lower costs, lower usage sharpening applications. The Knife & Scissor Sharpener is the entry level design that provides a quick and portable tool for 100s of sharpening applications. Each stone is specifically designed for a popular sharpening application and packaged to sell. Following the sharpening guide maximizes the effectiveness and ensures longer product line. See [www.nortonconsumer.com](http://www.nortonconsumer.com) for sharpening instructions.

Sharpening Best Set (18"w x 36"h)

Most manufacturer's ship their cutting tools without keen edges to avoid damage in transit. The blade tool/blade will need a good sharpening to realize its full potential.

For more sharpening products, see catalog #200.
