

HEAVY-DUTY R999B ABRASIVE BELTS

Demanding Applications Now Have a Heavy-weight Solution

The Norton R999B ceramic belts are specially engineered for high-pressure and hard-to-grind materials.

The tough, sharp grain and improved H-weight backing provide maximum productivity with lower total abrasive cost.

KEY MATERIALS

- Carbon
- Cast iron
- Inconel
- Steel
- Forged Steel
- Stainless Steel

TYPICAL APPLICATIONS/MARKETS

- Oil & Gas Pipe Upset
- Investment Castings/Aerospace
- Foundry and Forge
- Primary Metal Making
- Hand, Striking and Cutting Tool
- Fabricated Metal

THE **MUSCLE** BEHIND THE MACHINE®

HEAVY-DUTY R999B ABRASIVE BELTS

THE GREATEST PRODUCTIVITY AND LOWEST COST

Norton R999B ceramic belts strike a perfect balance of a premium ceramic grain with affordable performance.

FEATURES & BENEFITS

- Sharper grain and improved supersize coating technique for 30% added life; less downtime changing belts
- Keen grain edges generate a more aggressive, cool-cutting grinding surface
- Improved H-weight backing provides improved body retention, resulting in consistent grinding throughout life
- Extremely durable; holds up to demanding applications with less pressure required to cut
- Improved base adhesion provides exceptional grain retention for longer life

AVAILABILITY – STOCK
