

THREE OF A KIND ALWAYS BEATS A PAIR

THIN. RESILIENT. DEPENDABLE.
ALLOWING YOU TO FLEX YOUR FINISH

Achieve an amazingly fast cut and definitively better finish than competing pads, across a variety of industrial applications, where high performance and maximum productivity are standard operating procedure.

TECHtip

Thin-Flex hand pads are a safer, cleaner substitute for steel wool:

- Waterproof, solvent-resistant, non-metallic – won't rust, shred or splinter
- Flexible – can be cut or folded; washable and reusable
- Gentle cleaning action – no surface alteration

BEAR-TEX[®]

THIN-FLEX[™]
HIGH-PERFORMANCE HAND PADS

FEATURES & BENEFITS

- Extremely thin and conformable; ideal for cleaning, blending, finishing, and deburring contoured surfaces and tight spaces
- Resilient web construction adds life, and superior, constant cutting action without added effort from user
- Dependable; excellent alternative to conventional abrasive hand pads when controlling time and cost are key
- Versatile; ideal for woodworking, metalworking, maintenance operations and synthetics fabrication
- NEW! Micro fine gold pad for light cleaning and fine finishing

Availability
