Eyewear

3M™ Solus™ 1000 Series Safety Eyewear and 3M™ Goggle Gear 500 Series Goggle with Scotchgard™ Anti-Fog Premium Coating

Q4
2016

Q4
2016

Scotchgard™ Anti-Fog Coating lasts longer than traditional anti-fog coatings,* helping to increase eyewear performance in wet and steamy environments.

- Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens
- The coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer
- The coating can be disinfected with diluted bleach soaking or up to 15% alcohol wipes without losing its anti-fog performance
- Scotchgard™ Anti-Fog coated eyewear meets the requirements of ANSI Z87.1 and CSA Z94.3

*Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

3M™ Virtua™ Protective Eyewear V6X

Q2
2016

Lightweight, unisex 3M™ Virtua™ V6X protective eyewear combines versatility and value with high wraparound coverage, polycarbonate construction, and a comfortable, contoured fit.

- Economy-rated glasses merge style, fit, lightweight comfort, and affordability
- Soft temple tips and nose bridge cushion high contact points for comfort
- Polycarbonate lenses absorb 99.9% UVA and UVB
- Sporty looks complement the appearance of the wearer
- Wraparound design provides side eye protection and unobstructed viewing

Eyewear cont.

3M™ SecureFit™ 600-Series Protective Eyewear

Stylish design features proprietary 3M™ Pressure Diffusion Temple Technology that helps diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit across a diverse workforce.

- Scotchgard™ Anti-fog Coating lasts longer than traditional anti-fog coatings*, helping to increase eyewear performance in wet and steamy environments
- Clear polycarbonate lens absorbs 99.9% UVA & UVB
- The proprietary coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer
- Workers can feel confident wearing 3M™ SecureFit™ 600-Series Protective Eyewear because it meets the requirements of ANSI Z87.1-2015

*Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

3M™ GoggleGear™ 2890 Series

The GoggleGear™ 2890 Series Safety goggles feature a modern design, Scotchgard™ Anti-fog lens coating, and are available either as non-vented or with indirect ventilation. They are suitable for a number of different applications where a comfortable goggle is required.

Scotchgard™ Anti-fog coating lasts longer than traditional anti-fog coatings, helping to increase eyewear performance in wet and steamy environments. The coating retains its effectiveness for at least 25 washings with water, allowing workers to wear their eyewear longer.

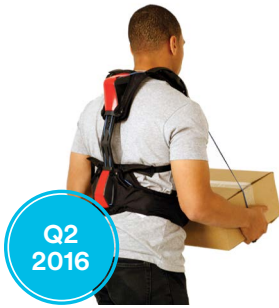

- Indirect venting non-vented goggle
- Anti-scratch and Scotchgard Anti-fog coating
- Fog and abrasion resistant coating
- Clear or gray polycarbonate lens
- D3 (droplet and splash) and D4 (dust) rated

StrongArm® ErgoSkeleton™ Devices (distributed by 3M)

StrongArm® ErgoSkeleton™ Lift Assist Device V22

Q2
2016

StrongArm® ErgoSkeleton™ Lift Assist Device V22 helps reduce certain risks associated with back injury and lumbar back pain. This accessory changes the dynamics of a lift to promote safer lifting techniques and to better distribute the weight throughout the body. By promoting proper pivoting, knee bending and body mechanics, the risk of back injury can be reduced.

- Device helps workers use proper lifting techniques to help reduce the potential risk of back injury
- Ergoskeleton design transfers much of the load of heavy lifting from the upper body to the legs
- Helps reduce arm fatigue from lifting heavy objects
- Promotion of proper lifting techniques helps reduce the risk of back injury
- Device can potentially save workers from needless back pain and injury and can potentially save employers from costly back injury-related expenses

StrongArm® ErgoSkeleton™ Postural Support Device FLx

Q2
2016

StrongArm® ErgoSkeleton™ Postural Support Device FLx helps reduce fatigue and certain risks associated with back injury and lumbar back pain. This device reminds the user by applying gentle pressure against the back if the user moves into an improper position.

- Device is designed to provide feedback to the wearer and helps wearer maintain proper posture and lifting technique
- Promotion of proper lifting techniques helps reduce fatigue and the risk of back injury
- Device can potentially save workers from needless back pain and injury, and can potentially save employers from costly back injury-related expenses

Respiratory Protection

3M™ Organic Vapor Service Life Indicator Cartridges 6000i Series

Q4
2015

Includes the 3M™ Service Life Indicator technology, an end-of-service-life indicator (ESLI) that can help users determine when to change cartridges in appropriate environments.*

- 3M™ Service Life Indicator technology to help determine when to change your cartridges in appropriate environments*
- Optimize cartridge use in certain environments with service life indicator based on individual exposures and respiratory use
- NIOSH approved for protection against certain organic gases and vapors
- Swept-back design allows an enhanced field of view and increased comfort
- Bayonet compatibility allows use with 3M™ brand half and full facepiece designs

*Please see the 6001i and 60921i User Instructions or the 3M™ Select and Service Life Software (3M.com/ServiceLifeSoftware) to determine if these cartridges and the (ESLI) are appropriate for your work environment

3M™ Versaflo™ Healthcare PAPR Kit TR-600-HKS and TR-600-HKL

Q4
2016

3M™ Versaflo™ Healthcare PAPR Kit TR-600-HKS and TR-600-HKL offer a complete powered air respirator system that include everything needed to get started, including disposable headcover, breathing tube, particulate filter, PAPR, charger, and cleaning and storage kit. These kits are popular for hospital and healthcare applications and settings.

- Complete healthcare respiratory protection system kit allows for use out of the box
- User-friendly design with intuitive, colored interactive touch points and visual, vibratory and audible low-flow and low-battery indicators
- Use in certain environments where easy cleaning is a priority
- Versatility allows for use with a range of components
- Helps protect against particulates. Gas and vapor protection can be provided with cartridges (sold separately)
- System provides integrated solutions for respiratory protection, with limited eye, head, face and skin protection as well

3M™ Versaflo™ Powered Air Purifying Respirator TR-600 and 3M™ Versaflo™ HEPA and Nuisance OV Filter TR-6820N

Q4
2016

The 3M™ Versaflo™ TR-600 Series Powered Air Purifying Respirators help provide durable protection, even in harsh environments. Designed to be compatible with multiple configurations of headtops, breathing tubes, batteries, filters, cartridges and more. Featuring an intuitive user-friendly design with colored interactive touch points, filter loading and battery status indicators, and visual, audible, and vibratory alarms.

- LED status lights for battery charge on both the battery and the motor blower
- Low-charge warnings, including vibratory, audible and visual alarms
- Easy tool-free maintenance
- The TR-600 is tough but lightweight, and it's easy to clean
- Active flow control technology maintains consistent airflow across any of the three user selectable airflow settings, even as the battery level decreases and filter loads with particulate
- Ergonomically designed to fit close to the body and allow for greater movement in tight work spaces

3M™ Versaflo™ Healthcare PAPR Assembly TR-614-HK

Q4
2016

3M™ Versaflo™ TR-614-HK Healthcare PAPR Assembly includes a motor/blower, standard battery, battery charger, filter, filter cover, length adjusting breathing tube, easy-clean belt and airflow indicator. Workers can customize their respiratory protection system by choosing the headtop. With the option to customize, workers can design a respiratory system that meets their specific needs.

- User-friendly design with intuitive, colored interactive touch points and visual, vibratory and audible low-flow and low-battery indicators
- Works with numerous NIOSH approved filters/ cartridges (sold separately) to help protect against particulates and gases/vapors
- Versatility allows for use with a range of components that are interchangeable
- Assembly provides motor/blower, battery, battery charger, particulate filter, filter cover, breathing tube, belt and airflow indicator, cleaning and storage kit and storage bag
- Worker selects headtop (sold separately) to customize respiratory system

3M™ Versaflo™ Light Industry PAPR Kit TR-300-LIK

Q4
2016

3M™ Versaflo™ TR-300-LIK is a complete, ready-to-use PAPR system for light industrial applications where particulate respirators and face protection are typically worn. The kit provides a convenient way to purchase everything needed to get started. Featured components include the respiratory faceshield with factory mounted earmuffs, breathing tube, and particulate PAPR assembly TR-306N.

- Complete NIOSH approved PAPR system, all in one box
- Audible and visual alarms provide indication of low-battery or low-flow conditions
- User-friendly design with intuitive, colored interactive touch points
- May be a comfortable alternative to negative pressure, dust respirators
- Meets the requirements of the ANSI Z87.1-2010 standard for limited eye and face protection devices; may be a comfortable alternative to standard faceshields

3M ID No.	3M UPC	3M Part No.	Description

3M™ Versaflo™ Respiratory Faceshield Assembly M-200 Series

Q4
2016

Lightweight, comfortable headgear that combines a respirator and faceshield, with the option of adding earmuffs for hearing protection. This headtop is popular in light industry where respirators and face protection are typically used. Combine with 3M Versaflo PAPR or Supplied Air components to create a complete respiratory assembly.

- Complete, fully assembled PAPR headtop allows for use right out of the box
- Meets the requirements of the ANSI Z87.1-2010 standard for limited eye and face protection devices; may be a comfortable alternative to standard faceshields
- Flexible application, use with any 3M Versaflo system
- Hearing protection compatible with M-985 earmuffs (sold separately)
- May be a comfortable PAPR alternative to negative pressure respirators
- Easy-to-use design with ratchet suspension and liftable visor

3M™ Ultimate FX Full Facepiece Respirator Stacked Lens Cover FF-400-18

Q4
2015

3M™ Stacked Lens Cover FF-400-18 makes it easy to help protect the lens of the 3M™ Ultimate FX Full Reusable Respirators Facepiece, models FF-401, FF-402 and FF-403, while maintaining worker productivity in certain work environments. The lens cover features seven layers that can be easily removed as they become contaminated. As a layer is removed, it reveals a fresh, clean layer underneath.

- Includes seven removable lens cover layers to help protect the facepiece lens
- Each layer easily peels away by hand as outer layer becomes clouded with overspray, dirt and residue
- Peeling away contaminated layer reveals a clean layer underneath
- The perimeter adhesive on the lens cover seals firmly to the lens and helps keep debris away from facepiece lens
- Outer layer may be peeled away by hand while wearing respirator, limiting work stoppages to change the lens cover
- Stacked lens cover system minimizes prep time when multiple lens covers are required to perform a job
- System works with 3M™ Ultimate FX Full Reusable Respirators Facepiece, models FF-401, FF-402 and FF-403

3M™ Belt Mounted Powered Air Purifying Respirator GVP Upgrade Kit GVP-600 and GVP Assembly GVP-614-SK

NEW
Q4
2017

The GVP-600 Upgrade Kit is an adapter kit that allows use of the TR-630 battery with GVP-100 PAPR systems and replaces the BP-15 battery. The GVP-614-SK provides a ready to use PAPR assembly designed for smelting or heavy industrial use. Simply add a NIOSH approved 3M Versaflo M-Series headgear option and the user is ready to go.

- Easy to use
- Comfortable
- Both the GVP-600 and GVP-614-SK include the 3M™ Standard Battery TR-630, which when used with the GVP and TR-659 battery adapter provides a longer expected run time than the BP-15

3M™ E-A-Rfit™ Dual-Ear Validation System

3M™ E-A-Rfit™ Dual-Ear Validation System is an objective fit-testing system used to validate the fit of 3M™ earplugs and earmuffs. Provides a Personal Attenuation Rating (PAR) for each worker.

- Objective, dual-ear test, takes only seconds to test for seven standard frequencies
- Intuitive software user interface makes administering test quick and easy
- Free online training and user support
- Requires probed test plugs
- Capable of testing most 3M™ Earplugs and Earmuffs
- Test results are documented for each subject and can be printed or saved electronically for future reference
- Includes software, speaker, microphone assembly and impact resistant carrying case

3M ID No.	3M UPC	3M Part No.	Description

3M™ One Touch™ Pro Earplug Dispenser

The 3M™ One Touch™ Pro Earplug dispenser offers convenient access to workers on the move. A simple twist accurately and consistently dispenses one earplug at a time. The reusable freestanding or wall hanging dispenser can be re-stocked with One Touch™ refills of our most popular 3M™ E-A-R™ Earplugs.

- Convenient workforce access – it has the flexibility to be used freestanding or secured easily to a wall
- Designed for robustness and durability – built for harsh working environments and repeated use
- Beating the elements – the innovative design protects against rain and wind
- Made from ABS plastics that offer impact resistance, wide temperature tolerance and smooth operation
- Easy to know when to refill – the level monitor is front and center, ensuring you won't run short
- Refill quickly – refilling the dispenser is simple and takes just moments to complete

3M™ UltraFit™ Silicone Corded Earplugs

Q1
2016

3M™ UltraFit™ Silicone Corded Earplugs offer convenient, corded comfort. Made from durable, medical-grade silicone, these earplugs include a cloth cord and help provide in-ear comfort and convenience with a Noise Reduction Rating (NRR) of 24dB*.

- Soft material easily adapts to the ear canal
- Durable, medical-grade silicone is washable and reusable helping to reduce waste and costs
- Three-flange design fits a wide range of ear sizes
- Noise reduction rating (NRR) 24dB*. CSA Class AL
- No need to roll earplugs before fitting so the tips stay clean even if hands are dirty
- Carrying case helps keep earplugs clean and accessible for re-use

*3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

3M ID No.	3M UPC	3M Part No.	Description

3M™ E-A-R™ Clear Plug™ Earplugs, in Carrying Case

Q3
2017

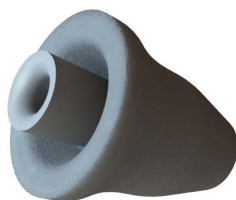

The 3M™ E-A-R™ Clear Plug™ Earplugs have been developed to offer attenuation in medium risk areas and are designed to minimize sounds that adversely affect communication with your colleagues or customer.

- Clear material with short stem allows plugs to be worn discreetly
- Provides less noise protection than other earplugs, reducing over-attenuation and muffling effects sometimes associated with earplugs
- Soft, flexible polymer flanges seal the ear comfortably
- Designed for entertainment and service industry professionals including performers, crew, wait staff, and security personnel
- Proven three flange design fits a wide range of ears
- Noise Reduction Rating (NRR) 16 dB*

*3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

3M™ PELTOR™ Earmuffs – X Series

Q3 2016

Q3 2017

3M™ PELTOR™ Earmuffs with multiple headband options are 3M's latest advancement in hearing conservation. New technologies in comfort, design and protection all come together in this groundbreaking earmuff line. Light-weight, low profile earmuff designed for protection against industrial noise and other loud sounds.

- Multiple headband options: appropriate for a wide range of applications
- Fit can be confirmed: Verify with 3M™ E-A-Rfit™ Dual-Ear Validation System***
- Series has a wide range of attenuation: Noise Reduction Ratings (NRR) from 21dB to 31dB***
- Hard hat attached models:
 - High-performance arms balance durability and flexibility
 - Easy click in / click out: move cups on and off ears easily
 - Convenient storage: store with cups clicked in or out
 - Compatibility with 3M cap style hard hats: designed for use with a standard hard hat slot**

**This product was designed and tested with a 3M Hard Hat H700. For information on other hard hat models contact 3M.

***3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

Hearing and Communication cont.

3M™ PELTOR™ HearPlug Listen-Only Earpiece

Q2
2016

3M™ PELTOR™ HearPlug listen-only earpieces are designed for mobile radio users who must have clear reception of incoming transmissions while working in noisy environments.

- Various hearing protection levels based on communication eartip selection: PELTIP1 - UltraFit (24dB NRR) and PELTIP6 - Classic (30dB NRR)*. PELTIP6 is a new product replacing PELTIP2.
- Clear sound reproduction with hearing protection
- Improved ability to hear communication in high-noise environments
- Straight cable easily routes through clothing; curly cable helps to prevent the eartip dislodging when worn over layers of clothing
- Helps to reduce repeated or missed messages caused by inability to clearly understand transmissions
- Compact, low weight design

Tested according to ANSI S3.19-1974 (NVLAP Lab Code 100374-0).

*3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earmuff fit, earmuff fitting skill and motivation of the user. If NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations.

3M™ PELTOR™ WS™ ProTac™ XP Headsets

Q3
2016

3M™ PELTOR™ WS™ ProTac™ XP Headset is an active-hearing protector that features Bluetooth® technology. Connect wirelessly to other Bluetooth® devices, such as mobile phones or two-way radios. Environmental microphones enable level-dependent hearing protection, helping block potentially hazardous noise while allowing you to listen during periods of quiet. The headset provides effective noise attenuation when sound level is high.

- DSP (Digital Noise Reduction) provides clear speech transmission
- Supports Bluetooth® A2DP profile for streaming high quality stereo sound
- High attenuation for hearing protection in noisy environments
- Includes an auxiliary port for connection to a two-way radio (FLEX cable required, available separately)

3M™ PELTOR™ ALERT™ FM-radio headsets

NEW
Q4
2017

3M™ PELTOR™ ALERT™ Headset has been developed to help improve safety and motivation in noisy environments. It enables you to listen to FM-radio or external device (MP3-player, cell phone) and still hear your surroundings, or communicate with your colleagues without taking the hearing protector off. It helps safeguard you from harmful noise, while allowing you to work and interact with others.

- Occupational Hearing Protection helps protect you from potentially harmful workplace noise
- Built-in FM Radio for Listening Enjoyment
- The level-dependent environmental listening allows ambient sounds to be heard while being limited to 82dB.
- User-friendly controls.
- The 3.5 mm listen only stereo input (limited to 82 dB) connects to external devices (e.g. mobile phone, two-way radio, MP3 player) via the included 3.5 mm cable.
- Improves your ability to communicate with nearby colleagues without removing the headset.
- Improves your ability to hear without removing the headset.

3M™ PELTOR™ WorkTunes™ Pro AM/FM Radio Headset

Q4
2016

Enjoy your work day! Whether you are working in a manufacturing facility or outdoors on a landscaping team, the WorkTunes Pro helps protect you from hazardous or nuisance occupational noise, while at the same time provide the ability to listen to AM/FM radio. The built-in antenna, fast digital tuning and ability to store stations makes the hearing protector flexible and easy to use.

- Professional-quality hearing protection
- AM/FM radio with built in antenna to prevent snagging on equipment
- Digital station search with announced frequencies for easy station-hopping
- Store up to five stations so you don't miss your favorite station
- Auto power off, the headset will turn off after four hours of non-use to save battery
- 3.5 mm listen only stereo input (limited to 82dB) for connection to external devices (e.g. cellphone, two-way radio, iPod®)
- Audible low-battery warning so you know when to change your batteries

3M™ PELTOR™ ProTac™ III Slim Headset

Q4
2016

A great value in electronic level-dependent hearing protection. 3M™ PELTOR is a leading brand in electronic level-dependant hearing protection for professionals who have an occupational exposure to steady state or impulse noise. The ProTac III helps protect your employees' hearing and allows them to listen to important ambient sounds (at a maximum level of 82dB). Enable communication with colleagues and hearing of warning signals and approaching hazards, while protecting hearing.

- Professional-quality hearing protection
- Environmental microphones for level-dependent hearing protection and ambient listening
- Auto power off, the headset will turn off after four hours of non-use to save battery
- 3.5 mm listen only stereo input (limited to 82dB) for connection to external devices (e.g. cellphone, two-way radio, iPod®), cable available separately
- Low-battery warning to inform you when to change batteries

Hearing and Communication cont.

3M™ PELTOR™ WS™ LiteCom Pro III Headset

Q3
2017

The analog and digital two-way radio enables clear, hands-free communication in high levels of noise and integrates seamlessly into your existing two-way radio system. And with Bluetooth® multipoint functionality, workers can be wirelessly connected to two mobile devices. Plus, workers stay protected, aware and able to communicate face-to-face while never removing their hearing protection through level dependent functionality. And all of this technology is combined with the professional-grade durability and all day wearability you've grown to expect from 3M™ PELTOR™.

- Built-in programmable two-way communication radio allows hands-free headset-to-headset communication without cumbersome cables or cords
- The headset can be programmed to use up to 70 unique two-way radio channels using analog and/or DMR digital modulation
- Easily integrates into similar professional radio communication systems
- Designed by 3M™ PELTOR™ and built tough for the working professional

Head Protection

Task Lighting for 3M™ Hard Hats

Q4
2016

Versatile headlamps that allows hands free lighting in certain industrial uses and can be worn with or without 3M™ Hard Hats. These water-resistant hard hat mounted headlamps are popular for a wide range of indoor/outdoor industrial lighting applications.

- Includes three AAA batteries and three attachment options – nylon headstrap, rubber hard hat strap, 3M™ Dual Lock
- The rubber headband provides a secure attachment for the headlamp to most 3M hard hats
- The 3M™ Dual Lock fastener works well for securing the headlamp to many hard hat designs and materials
- Securing the headlamp without a strap reduces interference with earmuffs and other hard hat attachments
- The nylon headband allows the lamp to be worn by the user without wearing a hard hat

Welding

3M™ Speedglas™ Welding Helmet 9100-QR

Q4
2015

Hard hat and welding helmet system that allows welding helmet to nest over hard hat when raised. In addition, can easily detach welding helmet, leaving the lightweight rail on the hard hat while performing non-welding tasks.

- Welder can keep his or her welding gloves on while attaching and detaching the welding helmet from the rail
- Allows continuous head protection for welders
- The quick release system can convert many of the industry's hard hats into an auto-darkening welding helmet

3M™ Speedglas™ Auto-Darkening Filter 9100XXi

Q4
2015

The 3M™ Speedglas™ Welding Helmet 9100 with Auto Darkening Filter 9100XXi offers the largest viewing area in our 3M™ Speedglas™ product line. But with improved optics, the 9100XXi ADF allows you to see colors in a more realistic and natural state, which can help welders complete certain jobs with greater precision.

- Improved optics allow welders to see more realistic colors
- Two memory modes that allow welders to set individual settings for dark shade, light-to-dark switching sensitivity, and dark-to-light delay
- The 9100XXi silver front panel houses external controls, enabling fast and easy access to the grinding and memory modes
- External grinding mode activation
- Grab and go with auto-on allows welders to work quickly
- Meets ANSI Z87.1 standard for limited impact
- An improved user interface that is easy to understand
- Welding cap, carry bag, and starter kit included

Self Retracting Lifeline

Ultra-Lok™ Self Retracting Lifeline – Retrieval

Q2
2015

50 ft. (15.2m) of 3/16" (5mm) galvanized steel wire rope with 3-way emergency retrieval winch, mounting bracket, swiveling snap hook and anchorage carabineer.

- 3-way emergency retrieval system
- Integrated quick-connect mounting bracket for attachment to DBI-SALA® tripods or davit systems
- Stowable retrieval handle
- 50 ft. (15.2m) of 3/16" (5mm) galvanized or stainless steel cable lifeline
- Rugged and extremely lightweight thermoplastic housing
- Stainless steel dynamic components
- Internal energy absorption system
- Anti-ratcheting twin disk brake system
- Constant moving brake system pawls
- Built-in carrying handle
- Swiveling anchorage point and swiveling snap hook with impact indicator
- Reserve lifeline system

3M™ DBI-SALA® Self-Rescue

Q1
2016

- Virtually universal attachment. DBI-SALA® Self-Rescue retrofits to virtually any safety harness, so the worker can keep wearing the one he or she is most comfortable using.
- EZ-Link™ D-ring. The EZ-Link stand-up D-ring provides a simple, fast connection point for our lanyards or personal self-retracting lifelines (SRLs). This patent-pending technology is tested to speed up connection and disconnection times by up to 80%, delivering convenience and time-savings every time the worker climbs.
- 50 or 100 foot lengths. Every at-height worksite is different, so it only makes sense that the safety equipment fits the job the worker sets out to do. With both 50- and 100-foot models to choose from, DBI-SALA Self-Rescue gives more flexibility and freedom to work at height.
- Assisted-Rescue Ring & DBI-SALA Rescue Pole accessory. In the event the worker is incapacitated during a fall and is unable to activate DBI-SALA Self-Rescue, the assisted-rescue ring allows for remote access and deployment by a colleague. For added efficiency, the telescoping DBI-SALA Rescue Pole accessory extends the worker's reach and easily hooks into the ring, providing for a safe, efficient assisted-rescue.
- Sealed Descent Device & Rope Spool. When the worker is operating in harsh environments, he can't afford to worry about equipment failure. That's why DBI-SALA Self-Rescue is designed and tested to withstand the toughest conditions. Compact, adaptable self-rescue systems.

3M™ DBI-SALA® Nano-Lok™ Wrap Back Self-Retracting Lifeline

Q2
2017

3M™ DBI-SALA® Nano-Lok™ Wrap Back SRL functions both as a fall protection device and tie-off adapter, allowing safety managers to consolidate multiple equipment capabilities in one versatile solution.

- Streamlines equipment selection. Combines fall protection and tie-off capabilities for overhead and foot-level applications (non-sharp edges) into one device.
- Connects easily. Built-in pin-style connector attaches directly to your harness.
- Built to last Dyneema® fiber 3/4 in. (19 mm) web lifeline and impact-resistant thermoplastic housing help withstand harsh environments.

3M Part No.	Description
3101654	3M™ DBI-SALA® Nano-Lok™ Wrap Back Single-leg SRL with tie-back snap hook x 8 ft. (2.4 m)

Self Retracting Lifeline cont.

3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform Self-Retracting Lifeline

Q2
2017

3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform Self-Retracting Lifelines are designed to reduce interference with equipment controls, reduce required fall clearances, and activate quickly to arrest a fall.

- Application flexibility - Requires up to 20% less fall clearance than a standard six foot lanyard*
- Security - Activates quickly in the event of a fall, reducing the distance traveled before arrest
- Working mobility - Designed to help reduce interference with platform controls so you can focus on your work
- Lightweight - Weighs as little as 2.5 lbs

*Clearance values are based on actual testing, but results may vary in the field depending on bucket truck type, orientation of boom, deflection of the boom, location of anchor point, user weight and type of fall protection used. See clearance chart in user instruction manual before use.

3M Part No.	Description
3101655	3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform SRL, 4.5 ft. of 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner, quick connector for harness mounting.
3101656	3M™ DBI-SALA® Nano-Lok™ Aerial Work Platform SRL, 3.5 ft. (1.1 m) of 3/4 in. (19 mm) Nomex®/Kevlar® fiber web and aluminum carabiner, swiveling anchor loop with 13 in. (33 mm) web extension with aluminum snap hook.

3M™ DBI-SALA® 5lb. Tool Retractor

Q2
2017

The 3M™ DBI-SALA® 5 lb. Tool Retractor features a lightweight, compact housing and a high-strength Dyneema® retractor line. This design helps minimize tool tangling, as well as minimizing job site tripping hazards and entanglements, while reducing weight on workers' belts and harnesses.

- Secure tools up to 5 lbs. Strong Dyneema® retracting line is the same material used in a variety of personal Fall Protection products
- Minimize tangling and tripping hazards. Line stays comfortably taut while reaching and retracts when not in use, or it can be locked at desired length.
- Reduce line twisting. Swivel top housing connection point rotates with worker's motion.
- Work freely. Working length of retractor line helps extend a worker's reach up to 50 inches.
- Lighten the load. Compact, lightweight profile adds less than half a pound to worker's gear load at just 0.36 lbs.
- Dual-action self-locking carabiners on each end of the device helps prevent accidental disconnections or carabiner rollout
- Harness Adapter - #1500161 Add an attachment point for the Retractable Tool Lanyard to your harness webbing.

3M Part No.	Description
1500156	The 3M™ DBI-SALA® Harness Adapter is a lightweight, versatile attachment point. The harness adapter is designed to be used with our 3M™ DBI-SALA® 5lb Tool Retractor, Hook2Loop Bungee Tether, Hook2Hook Coil Tether with Swivel, Hook2Hook Coil Tether and Hook2QuickRing Coil Tether with Tail.

Body Protection

3M™ Protective Coverall 4570

Q4
2015

3M™ Protective Coverall 4570 helps protect against a range of chemical jets and sprays. This chemical protective suit has been certified to Type 3/4/5/6 levels of protection. With additional design features including an enlarged zipper pulls and thumb loops, an integrated double-closing stormflap system and chin flap, convenience of use can be offered without compromising the level of protection offered.

- Protective coverall helps protect against a range of chemical jets and sprays
- Stitched seams are sealed with a 5-layer chemically protective tape
- Two stormflaps create a double seal for extra protection
- Soft material reducing noise from movement
- Heavy-duty fabric with a soft anti-static treated inner layer offers protection and convenience
- Large thumb loops and zipper pulls offer convenience while wearing gloves
- Meets ASTM F1670/F1671

Connected Safety

3M™ Inspection & Asset Management Software and 3M™ Connected Safety IOS App

With the 3M™ Inspection & Asset Management Software, you're not just streamlining your safety and asset management process and system — you're giving yourself access to real-time data that can help you enhance your worker protection program.

- Enhance Compliance Processes - gain easier access to audit information, which helps with assurance of worker and workplace compliance
- Save Time - digital inspection management reduces paperwork and helps save time spent on documentation and administrative tasks
- Be Proactive - on-demand reporting provides a direct line of sight on selected compliance metrics in real-time, helping users gain potentially valuable safety insights
- Cloud-based for simple deployment and easier maintenance

3M™ Retrofit RFID tags in multiple configurations

RFID-MMTB

The 3M™ Adhesive Mount HF RFID Tag for Flat Surfaces has an adhesive tape backing to make it easy to mount to flat surfaces. The 3M™ Adhesive Mount HF RFID Tag for Curved Surfaces is backed with a 3M™ VHB adhesive tape with foam core, making it more effective in mounting to curved surfaces. The 3M™ Mechanical Mount HF RFID Tag is designed to be mechanically mounted to surfaces with cable ties and the model MMTY also comes with key rings and adhesive disks for additional attachment options. These tags are also best suited for metal surfaces. For applications on non-rigid surfaces, the 3M™ Hanging Mount and 3M™ Retrofit Pouch provide a variety of attachment options.

Unitech® PA720 Rugged Handheld Computer (Android)

Q3 2017

The Unitech® PA720 is an Android handheld computer with a rugged design and built to last. The Unitech® PA720 is fully compatible with the 3M™ Inspection & Asset Management System and makes RFID tag reading simple and easy. Built on the Android mobile platform, the PA720 Android handheld device is a powerful and versatile data collection tool.

- Integrated scanner and HF/NFC/UHF RFID Reader
- Rugged Construction: IP65 rated and 4 drop certified
- Advanced performance with industrial grade 1.5Ghz Dual Core Processor
- Latest Bluetooth v4.0, GPS, Wi-Fi and wireless LAN 802.11 b/g/n tri-mode radios
- Large 4.7-inch color TFT multi-touch display
- 4ft drop tested
- Gorilla® Glass screen with 7H hardness

Training for 3M™ Inspection & Asset Management Application

Q1 2017

3M's training and implementation solutions offer your organization effective ways to improve return-on-investment by reducing setup time, quickly training new users, and increasing user adoption.

- We'll work with you to quickly setup your account, help you define checklists, and help you to begin to tag assets and conduct inspections
- Learn best practices and help ensure proper implementation
- Select training sessions convenient to your schedule

Blue Abrasives

3M™ Hookit™ and 3M™ Stikit™ Attachments

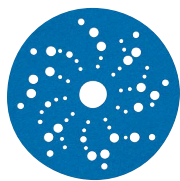

Q1 2017

3M's engineered ceramic mineral blend delivers best-in-class cut and life. A full line of discs and sheets is available in an array of sizes and grades for use throughout the repair process. Available in 3M™ Hookit™ and Stikit™ attachment systems — from body repair to paint prep, BLUE is all you need.

- Engineered ceramic mineral blend provides best-in-class performance using exactly the right balance of ceramic grain and premium aluminum oxide
- Anti-loading coating improves disc life
- Upgraded resins improve durability and finish

⚠WARNING
<p>Protective Coveralls These protective coveralls help protect against certain liquid splashes and hazardous dusts. Before use wearer must read and understand the <i>User Instructions</i> provided as part of the product packaging. Failure to follow all instructions on the use of these protective clothing products and/or failure to wear the complete product during all periods of exposure may adversely affect the wearer's health, or lead to severe or life threatening illness or permanent disability. Final determination as to the suitability of these products for a particular situation is the employer's responsibility. For proper use and selection see Supervisor, <i>User Instructions</i> or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>Welding Helmets This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. Misuse may result in permanent eye injury and vision loss. Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For proper use, see supervisor, or <i>User Instructions</i> or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>Fall Protection Products Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the <i>User Instructions</i> provided with the product, and be properly trained by their employer prior to use per OSHA 29 CFR 1910.140 and 1926.503 or applicable local standards. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see Supervisor, <i>User Instructions</i>, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>StrongArm® Products V22 The V22 ErgoSkeleton™ is a self-powered lift assist device. Misuse of the V22 ErgoSkeleton™ may result in serious injury. For proper use, see a supervisor, refer to these <i>User Instructions</i> or contact 3M Technical Service at 800-243-4630 in the USA. Please read, understand, and follow all safety information contained in these <i>User Instructions</i> prior to the use of this self-powered lift assist device.</p> <p>FLx The FLx ErgoSkeleton™ is a postural support device. Misuse of the FLx ErgoSkeleton™ may result in serious injury. For proper use, see a supervisor, refer to these <i>User Instructions</i> or contact 3M Technical Service at 800-243-4630 in the USA. Please read, understand, and follow all safety information contained in these <i>User Instructions</i> prior to the use of this postural support and conformance device.</p>

⚠WARNING
<p> Respiratory Products</p> <p>These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the <i>User Instructions</i> provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including, but not limited to, training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For correct use, see Supervisor, <i>User Instructions</i> or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>Hard Hats 3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provide limited protection only. Misuse or failure to follow warnings and User Instructions may result in serious personal injury or death. For correct use and selection, see Supervisor, <i>User Instructions</i>, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>Eye and Face Products These eye and face protection products help provide limited eye and face protection. Misuse or failure to follow warnings and User Instructions may result in serious potential injury, including blindness or death. For proper use, selection, and applications against flying particles, optical radiation and/or splash, see supervisor, read <i>User Instructions</i> and warnings on the package or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.</p>
⚠WARNING
<p>Hearing Protection Products* Caution: When worn according to the User Instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, visit www.3M.com/hearing.</p> <p>Choking Hazard—Keep away from infants and small children. These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, <i>User Instructions</i>, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.</p> <p>Noise Reduction Rating (NRR): *3M strongly recommends fit testing of hearing protectors. If NRR is used to estimate typical workplace protection, 3M recommends that NRR be reduced by 50% or in accordance with applicable regulations. See <i>User Instructions</i> for more information.</p>

Important Notice: WARRANTY: 3M will replace or refund the purchase price of any Personal Safety Division (PSD) product found to be defective in material, manufacture, or not in conformance with any express warranty. This warranty is exclusive and is in lieu of any implied warranty of merchantability or fitness for a particular purpose. LIMITATION OF LIABILITY: Except as provided above, 3M shall not be liable or responsible for any loss or damage, whether direct, indirect, incidental, special or consequential arising out of the sale, use or misuse of 3M PSD products, or the user's inability to use such products. THESE REMEDIES SET FORTH HEREIN ARE EXCLUSIVE.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. 3M has no obligation under this warranty with respect to product that has been modified or damaged through misuse, abuse, accident, neglect, misapplication, or mishandling by purchaser.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
