

# CUT AND IMPACT-RESISTANT GLOVES (PAIR) WITH TPR - LEVEL A5 - L

Product # **V5012140-L** | Model # **5363**

- **Material** – With a sandy nitrile-coated material on the palm, fingers, and thumb, these TPR Impact-Resistant Gloves, Cut Level A5 are oil resistant and grant users an excellent grip
- **Applications** – Tailored to be used for various industries including construction, oil/gas, automotive, shipping/receiving, metal/glass fabrication and much more!
- **Features** – The amazing resistance and dexterity comes from the heavy-duty TPR on the fingers, thumb, knuckles, and the back of the hand.
- **Design** – For the ultimate combination of protection and compliance, these gloves are designed with an HPPE/glass/steel/polyester cut-resistant liner, reinforced thumb saddle and a ribbed wrist.
- **Certification** – Available in various sizes and colours, the Cut Level A5, Impact-Resistant Gloves are ANSI/ISEA 105 level 5, and ANSI/ISEA 138 level 2 compliant.
