

HEAVY DUTY RUBBER WHEEL CHOCK - 11.6"/29 CM

Product # V6221170-O/S | Model # 2309

These wheel chocks are ideal for keeping trucks and trailers in place during loading and unloading operations. The ribbed pyramid design provides maximum grip to the tire and parking surface and is built to last in any environment.

- Resilient rubber compound is reinforced for maximum durability and strength
- Made with traction grippers to provide maximum friction between tire and parking surface
- Includes built-in steel eyebolt for chain or rope attachment (V6220860-O/S and V6220870-O/S)
- Resistant to UV light, moisture, salt, oil, and extreme temperatures
- All-weather construction makes for reliable performance in any climate
- Recommended for trailers, trucks, construction equipment, buses, and more
- Model 2309 is rated at 40 tons. Models 2306 and 298 are rated at 15 tons.
