

# SHD FLOOR JACK - 4 TON

Product # 030608 | Model # 984SHD

**STRONGARM**®

The Strongarm Super Heavy Duty floor jacks are built with power and loaded with precision. The Lightning™ hydraulic lift system and high-grade steel construction will provide years of heavy-duty use.

- Lightning™ hydraulic lift system quickly and efficiently raises the vehicle to the desired height
- Constructed with heavy-gauge steel frame and is built for professional use
- Industrial quality ball-bearing rear mounted swivel casters provide effortless mobility and easy positioning under the vehicle
- Upper and lower flanges withstand twisting of the unit while under heavy load (order number 030607 and 030608.)
- Rubber saddle pad and foam handle provide extra vehicle protection
- Safety bypass valve prevents accidental overload and improves operator safety
- Meets or exceeds ASME PASE 2019 standards

TECHNICAL SPECIFICATIONS

Capacity (lb.)	8,000
Capacity (T)	4
Certification	ASME PASE 2019 Safety Standard
Chassis Length (in.)	28"
Chassis Width - Front (in.)	11.12"
Chassis Width - Rear (in.)	15.4"
Duty Level	Super Heavy Duty
Handle Length (in.)	50"
High Height (in.)	20.5
Length (in.)	28"
Low Height (in.)	4.09, 4.1
Number of Handle Pieces	2
Operation	Hydraulic
Shipping Weight (lb.)	101
Type	Floor Jacks
Weight (lb.)	103
