

STABILIZING STAND – SINGLE POST - 3/4 TON

Product # 032208 | Model # 865A

Strongarm® 3/4-Ton Single Post Stabilizing Stands are designed to provide strength and stability while removing and positioning exhausts, suspensions, and axles in under-hoist applications. The stand extends from 54.5 to a maximum height of 79.5. Each stand is sold individually.

- Applications - Designed to stabilize vehicle-system components such as exhausts and suspensions in under-hoist applications
- Uses - Ideal for shock absorber replacement and exhaust system installations
- Design – Built with a wide 12” diameter base for stability and a slim design for lightweight portability
- Features – These stabilizing stands have a contoured saddle that supports most components, while the ACME-threaded screw maintains the device’s self-locking positioning
