

# JACK STANDS - LOW PROFILE - 10 TON - 1 PAIR

**STRONGARM**

Product # 032218 | Model # 866A

Low-height jack stands that are sturdily built with rugged steel legs for supporting trucks, trailers, and other heavy-duty equipment.

- Features - Pin-type support column adjusts to a variety of height positions. Additionally, the height-adjustment pin is attached to the standby cable to prevent it being lost.
- Design – Our Jack Stands are designed with a four-legged base model made from heavy schedule 2" diameter pipe for added stability
- Applications – Used and sold in pairs for supporting trucks, trailers, and equipment, these jack stands include a large saddle with locating lugs to help support and center the load
- Welded feet help prevent sinking into wet ground or asphalt
- Tethered height adjustment pin prevents loss
