WORKSTATION KITS

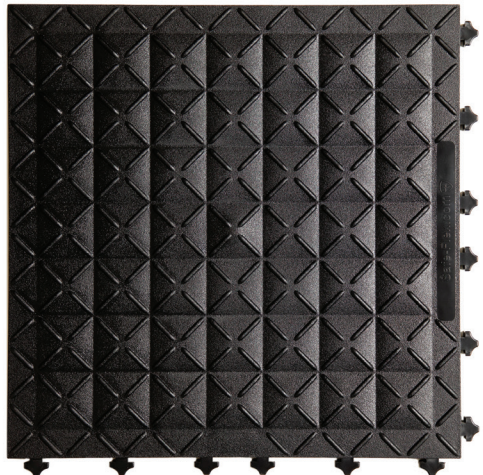

ONE CONVENIENT PACKAGE:

Kits come complete with all required edges and corners, and easy to follow assembly instructions.

HEALTH BENEFITS:

Designed specifically for the human body to deliver the best anti-fatigue support available.

- Even weight distribution reduces joint stress
- Textured domes increase blood-flow and limit fatigue

SAFETY IMPROVEMENTS:

Significantly decrease the chance of slips, trips, and falls.

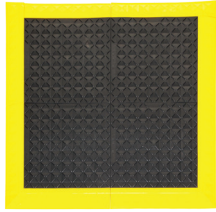

- Mat structure provides clearance for cords and hoses
- Bevelled edges won't curl and allow for safe traffic
- Fire and spark resistant
- ESD mats dissipate static electricity
