Scotch-Brite[™]

Radial Bristle Brush Application Notes:

Type-C disc actual size is 7 5/8 inches. Expands to 8 inches during operation. Fits standard 8 inch equipment.

Type-S disc actual size is 8 inches. Fits standard 8 inch equipment.

- For most applications, operating at 2000 RPMs or less is recommended. (See Chart for recommended operating speed.)
- No compounds, rouges or pastes required. Bristles contain abrasive.
- Safer than wire brushes. Works clean and runs cool. Flexible.

Key Applications:

Clean, deburr and finish detailed or shaped parts requiring comformability for industrial applications.

Light deburring on aluminum and copper parts for aerospace and electronic applications.

Deflash plastic parts.

Sand, defuzz and shape wood items.

Clean, finish, blend, pre-polish and texture in creative metals applications.

Use with tools such as:

Straightline grinders, bench motors, backstands and standard 8 inch equipment. Extension spacer (Part No. 33092) available for making brushes wider than 1 inch.

A WARNING

- Product can break apart during use and cause injury if damaged or run too fast.
- Always wear approved and appropriate eye, face, ear, hand and body protections. Injury to face* and eyes* can result if product fails.

Warranty and Limited Remedy: 3M warrants that each the product meets the applicable 3M product specification at the time of 3M ships the product. 3M MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
