

PRECISION IN EVERY DISC.

SCOTCH-BRITE™ PRECISION HEAVY DUTY SURFACE CONDITIONING DISCS

Revolutionizing the industry by combining 3M Precision-Shaped Grain and Scotch-Brite™ nonwoven web technology, the Scotch-Brite™ Precision Heavy Duty Surface Conditioning Disc delivers next level results and the consistency you've come to expect from the Scotch-Brite™ lineup.

Scotch-Brite™ Precision Heavy Duty Surface Conditioning Discs for High Pressure Applications

Scotch-Brite™ Precision Heavy Duty Surface Conditioning Discs are a heavy duty option designed for durability, long product life and consistent performance. These discs are ideal for high-pressure applications, such as grinding, deburring, edge breaking, blending and refining. Lasting longer than competitive premium nonwoven abrasives while offering edge durability and shape retention during edge wear. Grade XXCRS (60+) lasts 2X longer on mild steel and finishes 3X more mild steel parts compared to competitive premium nonwoven abrasives (based on 3M internal testing).

- ▶ Available in MED (150+), CRS (120+), XCRS (80+), XXCRS (60+)
- ▶ Features 3M Precision-Shaped Grain (PSG) for fast cut and long life
- ▶ Tough enough for heavy duty use
- ▶ Edge durability and shape retention during edge wear
- ▶ Made for use on aluminum, mild steel, nickel alloy, stainless steel and copper

Scotch-Brite™ Precision Heavy Duty Surface Conditioning Center Hole Discs using a retainer nut are allowed a 5/8 inch (15.875mm) maximum overhang of back up pad. This allows for added flexibility, reach, and abrasive optimization.

COMBINED BENEFITS OF TWO 3M TECHNOLOGIES

We merged 3M Precision-Shaped Grain with the nonwoven web technology of our surface conditioning products to quickly and effectively clean and finish surfaces without changing the geometry or dimension of the base material.

TECH TIP

Process optimization

Make paint prep on mild steel simple with a 2-step process by combining the fast cutting 3M™ Cubitron™ 3 Fibre Disc and long lasting, fine finishing Scotch-Brite™ Precision Heavy Duty Surface Conditioning Disc.

Scotch-Brite™ Precision Surface Conditioning Discs

Reformulated multi-purpose discs that feature 3M Precision-Shaped Grain technology, incorporated into the nonwoven web. Available in VFN, FIN, MED, CRS, and XCRS for low-pressure applications on typical substrates including aluminum, soft metals, carbon steel and stainless steel.

Bring new solutions to your bottom line.
