

Superior Protective Apparel: WOVEN APRONS

FUNCTIONAL BENEFITS:

Choose between 10 oz. cotton duck or flame-retardant fabric

Lightweight, comfortable and hard wearing

Great abrasion resistance

Fully launderable (*No chlorine bleach for Kevlar® or Proban®; see instructions)

APPLICATIONS:

Maintenance

Food Processing

Laboratory

Commercial Fishing

Welding (Kevlar®/Proban® styles only)

Superior Protective Apparel: Woven Aprons

Superior's woven aprons are suitable for many general-industrial applications. Cotton and denim styles are sewn from a durable 10 oz. duck for excellent protection that is fully launderable and hard-wearing, yet lightweight and comfortable to wear. Great for applications like food processing, laboratories, maintenance and commercial fishing. Kevlar® and Proban® styles offer flame-resistance on top of durability. This is inherent in the fabric, and will not wash out. (Please refer to laundering instructions for these two items.)

Flame-retardant styles are ideal for welding applications.

All styles are bar-tack reinforced.
