

Endura® | 505BUWS

Stick welding gloves with heat protection and cotton lining for comfort plus extended gauntlet cuffs

ABOUT THE PRODUCT

Our Endura® 505BUWS stick welding gloves feature a cotton liner for heat protection and comfort, plus extended gauntlet cuffs to protect wrists from welding hazards. These gloves are fully lined to offer ANSI 3 heat resistance while the cotton liner absorbs sweat and reduces heat transfer for more comfort during long welding sessions. The sewing thread is made with ParaActiv™ fiber for added seam integrity. They feature reinforced thumb patches for extra durability, plus extended gauntlet cuffs offer forearm protection against sparks, heat, and abrasion.
