

SolvStop™ | F294SL

Chemical-resistant gloves with stay-in-place sleeves for full length arm protection

ABOUT THE PRODUCT

Our SolvStop™ F294SL gloves offer chemical resistance and stay-in-place sleeves for full-length arm protection. Their double-dipped palms provide extra resistance to chemicals and solvents, and a flock-lined PVC material ensures they're stiff enough to stay in place. Wide elastic straps that wrap around the neck further ensure the sleeves stay put. They also protect against oils, grease, acid, caustics, solvents, detergents, oxidation, and water.
